Black And White Dungeness Lighthouse
Learn how a Lighthouse works, and all about the men who used to operate it. View the Great Lens and the Sector Light. Reward yourself or your family with a certificate of a successful ascent. Admire the inspired industrial Victorian architecture of the distinctive black and white Tower, the Landmark of Dungeness.

Dungeness Lighthouse
Dungeness Lighthouse on the Dungeness Headland started operation on 20 November 1961. Its construction was prompted by the building of Dungeness nuclear power station, which obscured the light of its predecessor which, though decommissioned, remains standing. The new lighthouse is constructed of precast concrete rings; its pattern of black and white bands is impregnated into the concrete. It remains in use today, monitored and controlled from the Trinity House Operations and Planning Centre at H

Dungeness Lighthouse - Wikipedia
But the first question to ask is why are there two lighthouses here? There have actually been five lighthouses at Dungeness over time. This one is the fourth, the black and white striped lighthouse to our left (east) is the fifth and newest. To find out why we're going to walk towards the new lighthouse.

Dungeness walk, Kent's coast
that year. The tower was painted externally in black and white bands so that it formed a beacon recognizable by mariners during daylight. Although no longer owned by Trinity House, this tower still remains at Dungeness. The 1904 lighthouse now stands more than 500 metres from High Water Mark.
