From the Preface: This manual, Child Protective Services: A Guide for Caseworkers, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based—including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

Many of the photos were removed due to copyright restrictions. Welcome to the first annual release of the Federal Fumbles report! Our national debt is careening toward \$19 trillion (yes, that is a 19 followed by 12 zeros), and federal regulations are expanding at a record pace. Meanwhile families struggle to get home loans, and small businesses struggle to make ends meet. States are constantly handed unfunded mandates and executive fiats that they are forced to implement with minimal direction and no way to pay for them. I present this report as a demonstration of ways we can cut back on wasteful federal spending and burdensome regulations to help families, small businesses, and our economy begin to get out from under the weight of federal stagnation. Cited here are not only prime examples of wasteful spending, but also federal departments or agencies that regulate outside the scope of the federal government's constitutional role. I firmly believe my staff and I have the obligation to solve the troubles of our nation, not just complain, which is why for every problem identified, you will also find a recommended solution. There is a way to eliminate wasteful, ineffective, or duplicative program spending; develop oversight methods to prevent future waste; and find ways to get us back on track.
