In Activity Theory people (actors) use external tools (e.g. hammer, computer, car) and internal tools (e.g. plans, cognitive maps) to achieve their goals. In the social world there are many artifacts, which are seen not only as objects, but also as things that are embedded within culture, with the result that every object has cultural and/or social significance.

How The Activity Learning Theory Works - TeachThought

Activity theory holds that the human mind is the product of our interaction with people and artifacts in the context of everyday activity. Acting with Technology makes the case for activity theory as a basis for understanding our relationship with technology. Victor Kaptelinin and Bonnie Nardi describe activity theory's principles,
