Description: Designed for the advanced accounting course, *Advanced Accounting 6th Edition* by Debra Jeter and Paul Chaney delivers a balanced and detailed approach to the conceptual and technical aspects of financial accounting and reporting.

Advanced Accounting delivers an in-depth, comprehensive introduction to advanced accounting theory and application, using actual business examples and relevant news stories to demonstrate how core principles translate into real-world business scenarios. Clearly defined and logically organized Learning Objectives aid in student comprehension, while highlighted Related Concepts illustrate how individual concepts fit into the larger picture. Short answer questions throughout the chapter allow students to test their knowledge before reaching the more in-depth end-of-chapter questions, promoting a deeper understanding of both technical and conceptual aspects of the field. Written by active accounting researchers, this text brings clarity and flexibility to the central ideas underlying business combinations, consolidated financial statements, foreign currency transactions, partnerships, non-profit accounting and more. This new Seventh Edition has been updated to reflect the latest changes to FASB and GASB standards, allowing students to build a skill set based on up-to-date practices. With a student-oriented pedagogy designed to enhance comprehension, promote

Designed for the advanced accounting course, *Advanced Accounting 6th Edition* by Debra Jeter and Paul Chaney delivers a balanced and detailed approach to the conceptual and technical aspects of financial accounting and reporting. *Advanced Accounting* includes comprehensive coverage of all three methods of consolidated financial reporting (cost, partial equity, complete equity). In the 6th edition, U.S. standards and international principles are compared and contrasted, drawing the readers' attention to the remaining differences.

Intended for a senior level course in advanced accounting taught at many four-year schools, the book's primary objective is to provide a comprehensive treatment of selected topics in a clear and understandable manner. The third edition reflects current issues in advanced accounting, integrates all three alternative recording methods (cost, partial equity, complete equity) for teaching consolidation concepts using worksheet icons and labels to distinguish among the three methods and new, enhanced student pedagogy.

Designed for a senior level course in advanced accounting, this text delivers a balanced and detailed approach to the conceptual and technical aspects of advanced accounting. Reflective of the current state of the international accounting landscape, this new edition discusses the upcoming globalization of accounting standards with frequent references to the FASB's new Codification system and with a "compare and contrast" method for explaining the differences between U.S. GAAP and IFRS. In addition, Advanced Accounting includes comprehensive coverage of all three methods of consolidated financial reporting (cost, partial equity, complete equity). Authored with both the student and teacher in mind, margin icons and labels distinguish all three methods and other pedagogical features.
