**Ages in Chaos III: Peoples of the Sea - 3 - Velikovsky** -

Ages in Chaos is a book by the controversial writer Immanuel Velikovsky, first published by Doubleday in 1952, which put forward a major revision of the history of the Ancient Near East, claiming that the histories of Ancient Egypt and Ancient Israel are five centuries out of step. He followed this with a number of other works where he attempted to complete his reconstruction of ancient history, collectively known as the Ages in Chaos series. Velikovsky's work has been harshly criticised, includ

**Ages in Chaos - Wikipedia**

(Ages in Chaos, pp. 141, 172-173). The recent excavations at Ein Gedi disclosed that frankincense actually was grown in the tropical climate on the shores of the Dead Sea. Some of the supporting evidence came from the literature of earlier years, not exploited in Ages in Chaos. W. F.

"Peoples of the Sea" is, in some sense, the culmination of the series "Ages in Chaos." In this volume the erroneous time shift of classical history reaches its maximum span - 800 years! With carefully documented evidence and indisputable arguments, Velikovsky places Ramses III firmly into the 4th century B.C. thereby solving, once and for all, numerous conundrums that historians had been confronted with in the past. He unveils the surprising identity of the so-called "Peoples of the Sea," clarifies the role of the Philistines and solves the enigma of the Dynasty of Priests. This volume leads Velikovsky's revised chronology up to the time of Alexander where it links-up with the records of classical chronology. In an extensive supplement Velikovsky delves into the fundamental question of how such a dramatic shift in chronology could have come about. Analyzing the main pillars of Egyptian chronology, he points out where the most dramatic mistakes were made and addresses the misunderstanding underlying the "astronomical chronology." In a further supplement he discusses the very interesting conclusions that can be drawn from radiocarbon testing on Egyptian (archeological) finds.

"Peoples of the Sea" is the culmination of the series "Ages in Chaos." Here the erroneous time shift of classical history reaches its maximum span - 800 years! With carefully documented evidence Velikovsky unveils the identity of the "Peoples of the Sea," clarifies the role of the Philistines and solves the enigma of the Dynasty of Priests.

With utmost precision, Velikovsky takes readers on a detailed and highly interesting journey through corrected history about the entire Near East.

Inspired by Velikovsky's "Ages in Chaos," Sweeney embarks on a 3-part work to complete the reconstruction of ancient history, he calls for a much more radical shortening of ancient chronology and asserts that Velikovsky placed too much reliance on the Bible as a chronological measuring rod.

Documents the work of gentleman farmer and geological theorist James Hutton who, in spite of the turbulent world of eighteenth-century Enlightenment Scotland, set out to prove that the earth was much older than the biblical calculation of six thousand years. Reprint.

While COVID-19 is reshaping our lives, this must-read book for 2021 provides some of the answers to our most pressing global challenges. Unless the world is basically peaceful, we will never get the trust, cooperation and inclusiveness to solve these issues, yet what creates peace is poorly understood. Working on an aid program in one of the most violent places in the world, North East Kivu in the DR Congo, philanthropist and business leader Steve Killelea asked himself, "What are the most peaceful nations?" Unable to find an answer, he created the world's leading measure of peace, the Global Peace Index, which receives over 16 billion media impressions annually and has become the definitive go to index for heads of state. Steve Killelea then went on to establish world-renowned think tank, the Institute for Economics and Peace. Today its work is used by organisations such as the World Bank, United Nations and Organisation for Economic Co-operation and Development (OECD) and taught in thousands of university courses around the world. Peace in the Age of Chaos tells of Steve's personal journey to measure and understand peace. It explores the practical application of his work, which is gathering momentum at a rapid pace. In this time when we are faced with environmental, social and economic challenges, this book shows us a way forward where Positive Peace, described as creating the optimal environment for human potential to flourish, can lead to a paradigm shift in the ways societies can be managed, making them more resilient and better capable of adapting to their changing environments.

Radically reconstructs ancient history to reveal that Nebuchadnezzar's enemy, known as Necho, is in fact Ramses II and that the so-called Hittites are the Chaldeans
