Alan Watts is "the perfect guide for a course correction in life, away from materialism and its empty promise" (Deepak Chopra). Here he shows us how—in an age of unprecedented anxiety—we must embrace the present and live fully in the now in order to live a fulfilling life. The Tao of Philosophy is a literary adaptation of talks selected to introduce the new "Love of Wisdom" series by Alan Watts to today's audiences. Alan Watts introduced millions of Western readers to Zen and other Eastern philosophies. But he is also recognized as a brilliant commentator on Judeo-Christian traditions, as well as a celebrity philosopher who exemplified the ideas — and lifestyle — of the 1960s counterculture. In this compilation of controversial lectures that Watts delivered at American universities throughout the sixties, he challenges readers to reevaluate Western culture's most hallowed constructs. Watts treads the familiar ground of interpreting Eastern traditions, but he also covers new territory, exploring the counterculture's basis in the ancient tribal and shamanic cultures of Asia, Siberia, and the Americas. In the process, he addresses some of the era's most important questions: What is the nature of reality? How does an individual's relationship to society affect this reality? Filled with Watts's playful, provocative style, the talks show the remarkable scope of a philosopher at his prime, exploring and defining the sixties counterculture as only Alan Watts could.

Once called "the godfather of Zen in America," Watts also covers topics such as the challenge of seeing one's life "just as it is," the Taoist approach to harmonious living, the limits of language in the face of ineffable spiritual truth, and psychological symbolism in Christian thought.
