After thousands of years, they're back...Awkward outcast omega Emery Jones isn't expecting to find anything more than adventure when he leaves his favorite hiking path and follows a strange series of

markers through the woods... and he's certainly not expecting to come face to face with the most gorgeous man he's ever seen. He's instantly smitten, but there's one problem--his dream guy insists that he's a dragon prince from another time, and Emery is his fated mate! After thousands of years in stasis, Coryphaeus of Novis, the draconian Crown Prince, has been awakened by a kiss from his fated mate. But when the shy little omega denies his draconian heritage and tells Cory that dragons are nothing more than fairytales, Cory knows that the world isn't as he remembers it. The dragons that once ruled the world are gone. It's too bad the threat they previously faced hasn't gone extinct, too... After thousands of years, they're back... Paranoid Inventor and draconian expert Sam isn't anything special... and that's all he wants anyone who may be watching to think about him. Sam is a conspiracy theorist who lives on the fringes, preferring to keep a low profile while he does what he knows best--study the ancient draconian culture that he knows isn't a fairytale. Aided by his intuitive ability to create gadgets and harness sound waves, Sam changes identities and addresses as often as he changes his clothes... all in a life-long quest to evade The Man. When he accidentally wakes a "sleeping" dragon who insists that they are mates, Sam's carefully structured world shifts sideways. Blaze is a dragon warrior--an alpha guardian assigned to protect the Crown Prince of Novis. When he and his men at arms are sent into stasis after a battle for their lives, the last thing he expects after being awakened is to find

himself thousands and thousands of years in the future. Not only is he now in a modern world where his kingdom no longer exists, but the people here believe dragons are nothing more than mythological creatures. The sound of his true mate's heartsong coming from the adorably awkward omega who freed him from stasis gives the alpha all the reason he needs to quickly acclimate to the changes the fates have thrown his way. But first, he needs to make Sam see reason and admit that not only is he an omega, but also Blaze's mate. Is Sam truly paranoid if someone is watching them? Settle in and let our dragons sweep you off your feet... and into a world filled with adventure! Alpha Ablaze is the second book in the Waking the Dragons series and features literally rock-hard hunks, a group of dragon hunters who shouldn't be discounted, something called a 'Corny,' and an HEA just as legendary as the dragons in it. #1 New York Times bestselling author Nora Roberts begins a new trilogy of adventure, romance, and magick in *The Awakening*. In the realm of Talamh, a teenage warrior named Keegan emerges from a lake holding a sword—representing both power and the terrifying responsibility to protect the Fey. In another realm known as Philadelphia, a young woman has just discovered she possesses a treasure of her own... When Breen Kelly was a girl, her father would tell her stories of magical places. Now she's an anxious twentysomething mired in student debt and working a job she hates. But one day she stumbles upon a shocking discovery: her mother has been hiding an investment account in her name. It has been funded by her long-lost father—and it's worth nearly four million dollars. This newfound fortune would be life-changing for anyone. But little does Breen know that when she uses some of the money to journey to Ireland, it will unlock mysteries she couldn't have imagined. Here, she will begin to

understand why she kept seeing that silver-haired, elusive man, why she imagined his voice in her head saying Come home, Breen Siobhan. It's time you came home. Why she dreamed of dragons. And where her true destiny lies—through a portal in Galway that takes her to a land of faeries and mermaids, to a man named Keegan, and to the courage in her own heart that will guide her through a powerful, dangerous destiny...

For nearly a decade, Erika Rosencrans has carried on her dead father's legacy to prove that dragons exist, but it isn't only his old archaeology research that drives her. Dreams of a potently masculine, red-haired man haunt her sleep and leave her aching to know him in the flesh. She is only sure of one thing: the man of her dreams is a dragon locked in hibernation and she won't stop searching until she finds him. Red dragon Geva has lain in stasis for five centuries, petrified in the form of a man awaiting release from his stone prison. All he desires is freedom, however it arrives, and has little use for love. But when his dreams become inundated by a female whose charms baffle him, he can't believe that a human woman such as her could possibly exist, much less be the mate that Fate intended to rouse him from his slumber. When the sound of Erika's voice finally breaks through Geva's dreams, he knows without a doubt that his wait is over, and that Fate has sent him a female strong enough to crack the stone walls of his ancient heart.

Adorably naive and shockingly brilliant Harrison Lessardi only needs two things in life: his pet iguana, Steve, and his undying love of science. That is until he witnesses his best friend lay eggs, and a third must-have strolls into his apartment—the sardonic and mischievous Everard Drake. Everard Drake, celebrated doctor of the tremendously wealthy Drake family, has one goal in mind when he arrives at the

scene of his youngest brother's latest disaster: incinerate Harrison Lessardi. Unfortunately for Everard, the moment he spots Harry, incineration becomes an impossibility-he must have the gorgeous beta as his own, even if it means holding him captive on his estate. But something else lurks behind Everard's interest in Harry-something that tugs at Everard's soul in impossible ways, and that will send Everard and Harry down a rabbit hole of discovery that will change the world as they know it. An alpha and a beta can't share a bond. Can they? Bond is a 78,000 word steamy omegaverse mpreg-ish romance that will leave you in stitches. It contains an unexpectedly consensual kidnapping; giant magical lizards; an iguana with a full wardrobe named Steve; never-ending nicknames; and a HEA that may, or may not involve mosquito nets. For maximum enjoyment, Bond is best read following the events of Clutch.

Bookish, snarky, and fiercely independent Nate Boudreaux leads a solitary life. Between teaching classes at the university and working toward his PhD, he doesn't

Spitfire Disgrace Matthieu Boudreaux has one wish: to age out of the Pedigree he despises, then destroy it. With one year left before he achieves the first step of his goal, Matthieu finally has some hope for an independent future... until a surly Amethyst dragon by the name of Geoffrey Drake and his entourage show up at Matthieu's cloister and inform him he's been selected to be part of an 'experiment.' Geoffrey Drake, proud and stuffy legal counsel for the Amethyst clan, has been charged with ruining his own life. His mission? Deliver a potential mate to the son of the Amethyst clan's most despised enemy-and the man he's loved in secret for the last hundred years-Topaz dragon Ian Brand. Refusal is impossible. Dragons don't consort with dragons, and should Geoffrey decline, he risks exposing them both. Ian Brand, charming black sheep of the Topaz clan, is trapped between his forbidden love for an Amethyst

dragon centuries his senior and his duty to his family. Chosen by his unhinged father to be the Topaz candidate for the mating experiment, Ian is faced with a terrible choice: run away with the man he loves and face the deadly consequences, or accept his fate with a broken heart. But dragon magic, as Matthieu, Geoffrey, and Ian soon discover, works in mysterious ways. When an unforeseeable circumstance draws them all together and puts their futures at risk, they have no choice but to set their differences aside and work together to prove a new, startling truth... What the dragon world knows about mates has been wrong all along, and it will be up to the three of them to prove it. Mate is a 103,000 word steamy omegaverse mpreg-ish romance that will leave you in stitches. It contains an experiment gone awry, five eccentric peacocks, an unusually large number of whelps, an ancient Viking Daddy dragon, and science! For maximum enjoyment, Mate is best read following the events of Clutch and Bond.

Sleeping Beauty never looked this hot! It's finally Lisa's turn to wake her very own dragon prince with a kiss (and more). She's been waiting for her chance to sleep with one of the hot shifters since she first saw them. What she didn't need was the added pressure of a battle raging outside at the time. Prince Verrian wakes to the shocking news that he's been asleep for three hundred years. In that time everything he's ever known has changed. Some of the changes, like the gorgeous human woman who woke him, are good. Others, not so much. When they step outside his chamber, they find that friend and enemy alike have disappeared, leaving them alone in the middle of the Australian outback, with no vehicle and no phone reception. And no idea who won the battle.

I had just escaped the hell of prison when I met her. I don't regret having to go behind bars. It happened the night I was protecting other dragon shifters., Dana is a shifter herself. She's got a dark past just like I

do. We're suited for each other. She might be my soulmate. But I can never give her the thing she wants most. Love. I lost my humanity in prison. Will Dana be the woman to bring it back?

Before Tarn, the dragon king, can face his ancient enemy, he must win the trust of new followers and the heart of a cynical desert spirit.
