Big cats like tigers, leopards, and lynxes have a fondness for it as well. Some wild cat species also seek out other drugs in the wild. For instance, Jaguars have been known to eat ayahuasca, also known as yagé. This plant contains the psychedelic compound DMT, which causes vivid hallucinations and a heightening of senses.

Animals and Psychedelics: The Natural World and the ...
Animals and Psychedelics by ethnobotanist Giorgio Samorini is a tantalizing tour of recorded cases of apparently-intentional self-intoxication in animals ranging from moths to porcupines.

Erowid Library : The Erowid Review » Animals and ...
While the initial appeal animals find in psychedelics is most likely for nutritional or protective reasons, many return time and time again to certain plants that contain psychedelic compounds. Fermented fruits, opium poppies, and hallucinogenic mushrooms are all quite popular amongst the animal kingdom.
