The following morning I woke up feeling terribly blue. I was afraid that Ben would never phone me. "I'll phone you some time"--a guy can easily say that to a girl, even if he has no interest in her and never plans to see her again. I stayed in bed until my mother left for work. I didn't feel like talking to anyone. Then I washed and had a small breakfast. I thought about phoning Joyce, but I couldn't think of what to say to her either. I felt so downhearted. All I could think about was Ben. What did I do to make him never want to see me again?

Following the stunning success of 8 Simple Rules for Dating My Teenage Daughter -- which was adapted into a TV show for ABC -- W. Bruce Cameron returns with an even more hilarious look at fatherhood, capturing the predicament of the forgotten man in the tux at his little girl's wedding. As Cameron explains, modern weddings are much like royal coronations, only more expensive. Aside from the writing of checks, there is not much fathers understand about them. Why can't guests successfully eat, drink, and dance unless the whole event is as carefully choreographed as a Broadway production? With his characteristic wit, Cameron captures the aspects of the wedding that are the most ridiculous to paternal eyes, for example: □ why the wedding needs a theme (this one is "We're all stressed out") □ why the wedding has to be photographed as if it will be reviewed by the Warren Commission □ why the bouquet must include a species of flower found only at the tip of the Himalayas □ why the wedding dress has to strike the right mood (which, judging from everyone's behavior, might best be summed up as "crabby") Throughout it all, however, a father keeps faith that the wedding -- if not the wedding preparation -- will make his daughter a happy woman. Hilarious yet poignant, 8 Simple Rules for Marrying My Daughter is sure to be a comfort to the legions of fathers (and mothers) who will one day have a daughter walking down the aisle.

You may not believe it, but there is a link between our current political instability and your childhood attachment to teddy bears. There's also a reason why children in Asia are more likely to share than their western counterparts and why the poor spend more of their income on luxury goods than the rich. Or why your mother is more likely to leave her money to you than your father. What connects these things? The answer is our need for ownership. Award-winning psychologist Bruce Hood draws on research from his own lab and others around the world to explain why this uniquely human preoccupation governs our behaviour from the cradle to the grave, even when it is often irrational, and destructive. What motivates us to buy more than we need? Is it innate, or cultural? How does our urge to acquire control our behaviour, even the way we vote? And what can we do about it? Timely, engaging and persuasive, Possessed is the first book to explore how ownership
