Our earth has natural electromagnetic energy, and over millions of years we have evolved to live in harmony with it.In our modern world, however, human-made electromagnetic fields are increasingly common -- wifi and mobile phone networks, for example. Katie Singer argues that these fields are now so prevalent that they are threatening the health of all aspects of our world -- people, plants, bees and birds -- and in particular our memory, DNA, behaviour, attention spans, sleep patterns and susceptibility to disease.This unique book examines the effects of electrification and presents solutions for communities and individuals who welcome the benefits of our digital world, but want to limit their exposure to electromagnetic radiation.

Revised every three years, the National Electric Code (NEC) is the most widely used and accepted criteria for all electrical installations. Containing up-to-the-minute facts and safety guidelines electricians need to avoid costly errors, the NEC remains a "must-have" reference for anyone involved in electrical design installation, identification, and/or inspection--it is adopted as law by most states and cities.

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

ARCHIE 3000 is the complete collection featuring the classic series. This is presented in the new higher-end format of Archie Comics Presents, which offers 200+ pages at a value while taking a design cue from successful all-ages graphic novels. Travel to the 31st Century with Archie and his friends! In the year 3000, Riverdale is home to hoverboards, intergalactic travel, alien life and everyone's favorite space case, Archie! Follow the gang as they encounter detention robots, teleporters, wacky fashion trends and much more. Will the teens of the future get in as much trouble as the ones from our time?

Sarah Coventry became a household word by selling beautiful, inexpensive, costume jewelry direct to the consumer and remained in fashion for more than 60 years. This in-depth look at the history of their designs contains more than 1,000 color images and engaging text. It begins with the unsigned years of 1949-1963, covers the cardex years of 1964-1965, includes the catalog years of 1966-1984, and has a smattering of beauties from the years after Lifestyle Brands acquired the rights to the trademark for other concerns. All of it has been carefully researched and documented, and presented here in full color form. Complete with a thorough genealogy of founder C. H. Stuart and his family, this is a great resource for jewelry collectors, historians, and fashion designers.

Arnold's funniest book yet reintroduces the nervous hero from "Parts" and "More Parts" while also depicting more than 100 body-part idioms. Kids won't be able to keep a straight face as they enjoy this clever, wacky, boldly illustrated book. Full color.

Poetry. Latino/Latina Studies. LGBT Studies. 'Like Whitman, Quesada is a poet of motion--journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglw of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"--D. A. Powell.

A title in Guido Knopp's series on Germany's Nazi past. "Hitler's Children" provides a comprehensive history of the young generation under Nazism, accompanied by much hitherto unpublished material and dozens of eye-witness accounts.

McConnell, Brue, and Flynn's Economics: Principles, Problems, and Policies is the #1 Principles of Economics textbook in the world. It continues to be innovative while teaching students in a clear, unbiased way. The 19th Edition builds upon the tradition of leadership by sticking to 3 main goals: Help the beginning student master the principles essential for understanding the economizing problem, specific economic issues, and the policy alternatives; help the student understand and apply the economic perspective and reason accurately and objectively about economic matters; and promote a lasting student interest in economics and the economy. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
