ATOMIC SHIFT: THE FIRST COMPROMISE-FREE BINDING. Our Shift binding shepherds in the next generation of freeride capability – and is the binding that freeriders and all-mountain skiers have been telling us they’ve been waiting for. It’s the first ever binding that’s a genuine tech binding for touring – but then shift to ski mode and it turns into a genuine freeride binding for the way down, with a TÜV certified Alpine heel and toe that’s compatible with all ISO boots norms on the ...

Atomic makes and produces skis, bindings and boots. Atomic's 310 series of bindings come either as stand alone bindings to be mounted on your skis, or packaged with Atomic skis. Atomic made these bindings so you could adjust them without having to take them off the ski, drill new holes, and remount them. The range of adjustment on the bindings goes from 260 to 380 mm, giving a large range of ski boot sizes that fit the bindings.
