As well as the buttons above there are dimensional and construction details here for the National hive. This information is by kind permission of the Scottish Beekeepers Ass'n. When making parts please remember the B.S. drawings are in imperial measurements and have been metricated by some manufacturers.

Drawings of National Bee Hive Component Parts

If you choose the simpler rabbet option, you need to cut a 3/4 inch wide by 3/8 inch deep rabbet along each corner of the short sides of the hive bodies and the short sides of the medium super. Also, you need to cut the long sides of the hive bodies and mediums to 19-1/8 inch when using the rabbet option (rather than the 19-7/8 inch length when using the finger joint option).
