BUKH DV 10 ME - TECHNICAL DATA Bukh DV marine engines have very little vibration. Dynamic balancing by means of an advanced system of rotating counter-weights takes care of the movements of pistons and connecting rods which would otherwise make the engines vibrate. Automatic fuel control ensures precise amounts of fuel are fed to the engine under any conditions. This keeps the rpm constant at ...

An illustrated guide to wooden boat construction using WEST SYSTEM epoxy by pioneers in the field of wood/epoxy composite construction. Subjects include Fundamentals of Wood/Epoxy Composite Construction, Core Boatbuilding Techniques, First Production Steps, Hull Construction Methods, and Interior and Deck Construction.

Metals have been used in boats for thousands of years, as components of the vessel's construction, as load-bearing parts of the rigging and steering systems, and for a wide variety of domestic and service duties. Due to misunderstandings of the properties of the metals used, and in some cases to questionable design and manufacture, there have been spectacular and sometimes tragic failures of boats' metalworking. These continue even today. This new book explains in layman's terms how a wide variety of metal alloys may best be selected, formed and manufactured to give optimum performance in the typical conditions of a sailing or powered vessel. Subjects as wide-ranging as anodes, batteries, hulls, skin fittings and rigging components are described in detail, enabling the boat owner to select the preferred material for his vessel. This practical and instructional book will be of great interest to sailors, boat owners and those involved in boat maintenance, and is fully illustrated with 90 colour photographs and 20 diagrams.

Tea, Beverages, Food products, Specimen preparation, Test specimens, Sensory analysis (food), Food testing, Bowls, Teapots, Dimensions, Shape

Format 6 x 9 Illus. 50 b&w photos + 24pp color photo section The definitive book on all aspects of metal corrosion in boats Includes a new 24 page color section Invaluable new content on electrolytic corrosion, copper sheathing, chromium plating and new sealants By the acknowledged expert

Trees Up Close offers an intimate, revealing look at the beauty of leaves, flowers, cones, fruits, seeds, buds, bark, and twigs of the most common trees. With more than 200 dazzling photos, you will be amazed by the otherworldly beauty of the acorns from a sawtooth oak, enchanted by the immature fruits of a red maple, and dazzled by the delicate emerging flowers of the American elm.
