Canada Investment and Business Guide - Strategic and Practical Information

Hundreds of thousands of people start their own businesses every year, and untold more dream about the possibility of becoming their own bosses. While entrepreneurship has its many potential rewards, it also carries unique challenges. Entrepreneurship is an act not a born tact, you need to understand the environment to set up an enterprise of you own. Setting up a business requires many things like understanding yourself, understanding market and availing funds are certain basic things that one must mandatorily know before making a business decision. To start a business of your own you need to understand the environment to set up an enterprise of you own. Starting a business involves planning, making key financial decisions and completing a series of legal activities. To run a successful business, you need to

learn all about your existing and potential customers, your competitors and the economic conditions of your market place. Entrepreneurship helps in the development of nation. A successful entrepreneur not only creates employment for himself but for hundreds. Deciding on a right project can lead you to the road to success. The purpose of this book is to enrich the people with an understanding of the entrepreneurial process. There is no presumption, however, that entrepreneurship can be taught, because entrepreneurs have their own peculiar way of doing things. Yet it is possible to help them be better prepared for transforming dreams in realities. This book majorly deals with the advent of quality management & its impact on marketing, total quality management, measuring customer satisfaction, pitfalls of the traditional approach, customer value management, marketing research for new ventures, implications of market research and competitive analyses, new developments in business to business marketing , relationship building in key account management, enlarging domain of marketing, finance for exports, understanding world trade environment, global marketplace of the nineties, business environment and political variables analysis, dimensions of political environment and so on. Consequently the book is organized to explore the nature of entrepreneurship, provide models for new venture creation and describe way to help entrepreneurs succeed. The book contains different
