Concurrency is an integral part of everyday life. The concept is so ingrained in our existence that we benefit from it without realizing. When faced with a taxing problem, we automatically involve others to solve it more easily. Such concurrent solutions to a complex problem may, however, not be quite straightforward and communication becomes crucial to ensure the successful solution of the problem.

Some say all love stories are the same. A boy meets a girl and they fall in love eventually. But is that where the story ends? What about the journey they make together, the feelings they share, and the moments they live? Aarush is a reticent boy who has dreams of making it to a premier engineering college. Staying away from home and working hard towards his dreams, he falls in love under strange circumstances. That too, truly, madly, deeply. Can love happen at sixteen, or is it just a passing infatuation? A true yet unusual emotional love saga, In Course of True Love explores the reality of puppy love, and plumbs its depth, its warmth, and its true meaning.

Defining structure and functions of knowledge-based systems, this book presents hardware and software components of flexible machining, flexible assembly and computer-integrated manufacturing systems. Discussed are such areas as process planning, group technology and lay-out design.
