Migration makes a profound impression on identity (gender and sexuality, culture, class, status), its expressions, and performance. Research in this field has demonstrated that migrant communities often cast women as bearers of cultural reproduction. This is especially the case when women choose to become representatives of their community through cultural dance performances. The performances that author Monika Winarnita analyzes are dramas of human interaction brought up through fissures and resolutions between the performers and their various audiences. The book provides analysis of these cultural performances as rituals of belonging, which demonstrate that in the diaspora meanings of the ritual are always open to being contested.

Dancing Women: Female Bodies Onstage is a spectacular and timely contribution to dance history, recasting canonical dance since the early nineteenth century in terms of a feminist perspective. Setting the creation of specific dances in socio-political and cultural contexts, Sally Banes shows that choreographers have created

representations of women that are shaped by – and that in part shape – society's continuing debates about sexuality and female identity. Broad in its scope and compelling in its argument *Dancing Women*: * provides a series of re-readings of the canon, from Romantic and Russian Imperial ballet to contemporary ballet and modern dance * investigates the gaps between plot and performance that create sexual and gendered meanings * examines how women's agency is created in dance through aspects of choreographic structure and style * analyzes a range of women's images – including brides, mistresses, mothers, sisters, witches, wraiths, enchanted princesses, peasants, revolutionaries, cowgirls, scientists, and athletes – as well as the creation of various women's communities on the dance stage * suggests approaches to issues of gender in postmodern dance Using an interpretive strategy different from that of other feminist dance historians, who have stressed either victimization or celebration of women, Banes finds a much more complex range of cultural representations of gender identities.

The essays in this book consider how gender dynamics manifest in the dance community.

worthwhile venture - Dance Research I have already found the Thomas edition of enormous value in teaching both undergraduates and postgraduates, from the perspectives of dance anthropology, ethnography and theatre dance analysis - Theresa Buckland, Department of Dance Studies, University of Surrey This unique collection of papers, written specially for this volume, explores the aspects of the ways in which dance and gender intersect in a variety of cultural contexts, from social and disco dance to performance dance, to the Hollywood musical and dances from different cultures. The contributors come from a broad range of disciplines, such as cultural studies, anthropology, sociology, dance studies, film studies, and journalism. They bring to the book a wide body of ideas and approaches, including feminism, psychoanalysis, ethnography and subcultural theory. List of Plates - Preface to the 1995 Reprint - Notes on the Contributors - Introduction - PART 1: CULTURAL STUDIES - Dance, Gender and Culture; T.Polhumus - Dancing in the Dark: Rationalism and the Neglect of Social Dance; A.Ward - Ballet, Gender and Cultural Power; C.J.Novack - 'I Seem to Find the Happiness I Seek': Heterosexuality and Dance in the Musical; R.Dyer - PART 2: ETHNOGRAPHY - An-Other Voice: Young Women Dancing and Talking; H.Thomas - Gender Interchangeability among the Tiwi; A.Grau - 'Saturday Night Fever': An Ethnography of Disco Dancing; D.Walsh - Classical Indian Dance and Women's Status;

What is the legacy of Martha Graham and why does it endure? How and why did the philosophy and subsequent canon of Martha Graham flood out into an artistic diaspora that is still a wellspring of inspiration for contemporary artists? How do dancers that have never studied with, or worked under, Martha Graham maintain her vision? All of these questions, and many more, are considered in this fascinating book, authored by one of the Martha Graham Company's ex-principal dancers, which illuminates the ongoing significance of the Martha Graham Dance Company almost 100 years after it was founded. Through doing so, we are offered a study of the history of the Martha Graham Dance Company - the longest-standing modern dance company in America, its international diaspora and the current generation of dancers taking up the mantel. Drawing on extensive interviews conducted for the book, the company's story is told through the experiences, inspirations,

motivations and words of performers from Graham's iconic artistic lineage.

Provocative insights into the nature of dancing as inseparable from human vitality and distinctiveness emerge from this spiraling study of specific cultural dance traditions brought into conversation with various philosophical/theoretical perspectives centering on the topics: movement, gesture, play, masking, ritual, seduction, performance, religion; each the subject of engaging innovative analysis. The author draws on experience as dancer and academic to address contemporary issues such as gender identity development and plasticity and acuity throughout the lifespan.

"... almost every page offers provocative commentary on the aesthetics and politics of modern dance." -- Signs "... [an] important step... in the ineluctable dance by postmodern historians across a bridge that spans the gaps among disciplines, between theory and practice, and between present and past." -- Theatre Journal "This complex and important book needs to be read by anyone interested in dance history or the cultural politics of dance." -- Dance Theatre Journal "Mark Franko's *Dancing Modernism/Performing Politics* is challenging, groundbreaking, insightful, and, I believe, an important contribution

to the field of dance scholarship." -- Dance Research Journal A revisionary account of the evolution of "modern dance" in which Mark Franko calls for a historicization of aesthetics that considers the often-ignored political dimension of expressive action. Includes an appendix of articles of left-wing dance theory, which flourished during the 1930s.

This book examines men, masculinities and sexualities in Western theatrical dance, offering insights into the processes, actions and interactions that occur in dance institutions around gender-transgressive acts, and the factors that set limits to transgression. This text uses interview and observation data to analyze the conditions that encourage some boys and young men to become involved in this widely unconventional activity, and the ways through which they negotiate the gendered and sexual attachments of their professional identity. Most importantly, the book analyzes the opportunities male dancers find to develop a reflexive habitus, engage in gender transgressive acts and experiment with their sexuality. At the same time, it approaches gender and sexuality as embodied, and therefore as parts of identity that are not as easily amendable. This book will be of interest to scholars in Gender and Sexuality Studies as well as Dance and Performance Studies.

Breaking, popping, locking, waacking, and hip-hop dance are practiced widely in contemporary Vietnam. Considering the dance practices in the larger context of post-socialist transformation, urban restructuring, and changing gender relations, Sandra Kurfürst examines youth's aspirations and desires embodied in dance. Drawing on a rich and diverse range of qualitative data, including interviews, sensory and digital ethnography, she shows how dancers confront social and gender norms while following their passion. As a contribution to area and global studies, the book illuminates the translocal spatialities of hip hop, produced through the circulation of objects and the movement of people.

This book explores the nexus between gender, ageing and culture in dancers practicing a variety of genres. It challenges existing cultural norms which equate ageing with bodily decline and draws on an interdisciplinary theoretical framework to explore alternatives for developing a culturally valued mature subjectivity through the practice of dance.
