Helps prepare students for document-based assessment in world history and world geography. Includes test-taking strategies, practice tests, and answer keys with scoring rubrics.

Help your students navigate complex texts in history and social studies. This book shows you how to use document-based questions, or DBQs, to build student literacy and critical thinking skills while meeting rigorous state standards and preparing students for AP exams. DBQs can be implemented year-round and can be adjusted to meet your instructional needs.

Get Free Doent Based Essment For Global History

With the helpful advice in this book, you'll learn how to use DBQs to teach nonfiction and visual texts, including primary and secondary sources, maps, and paintings. You'll also get ideas for teaching students to examine different points of view and write analytical responses. Topics include: Using the SOAPSETone (Speaker, Occasion, Audience, Purpose, Subject, Evidence and Tone) technique to to analyze visual and nonvisual texts; Teaching students to distinguish between primary and secondary sources; Working with multiple texts and learning to recognize the relationships between them; Formulating DBQs to suit different types of assessment, including short-

The use of information and communication technologies (ICTs) in education has revolutionized learning. Shifting beyond traditional mode of education, the integration of ICTs has become an advantage for students at tertiary education when used for the right purpose to enhance learning. The use of technology brings forth a flexible and accessible mode of education and bridges the gap of learning across borders. This enables students at tertiary level to have access to other universities and

academic resource materials globally, thereby expanding their knowledge. Thus, it is crucial to consider the development of technology in education as part of a comprehensive pedagogical framework and take into account new developments in ICTs. *ICT-Based Assessment, Methods, and Programs in Tertiary Education* is an essential research publication that provides relevant theoretical frameworks and recent empirical research findings on integrating ICTs in tertiary education to enhance learning and allow students to take more control of their learning. Highlighting topics such as assessment, language learning, and e-learning, this book is ideal for teachers, professionals, academicians,

The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-

Get Free Doent Based Essment For Global History

based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact

Get Free Doent Based Essment For Global History

evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.
