The only way you can retain the face-friendly attributes of an 85 to 100mm portrait lens on a Canon APS-C format DSLR is to use an 85 to 100mm portrait lens and step back about 40% further from your subject in order to fill the frame to head-and-shoulder proportions. When shopping for your next lens, keep this information in mind.

If you're a beginner photographer, this book can save you hundreds of dollars. If you're a seasoned pro, it can save you thousands. With access to over 16 HOURS of online video, this book helps you choose the best equipment for your budget and style of
