Every college and university has a story, and no one tells those stories like former New York Times education editor Edward B. Fiske. That's why, for more than 35 years, the Fiske Guide to Colleges has been the leading guide to 320+ four-year schools, including quotes from real students and information you won't find on college websites. Fully updated and expanded every year, Fiske is the most authoritative source of information for college-bound students and their parents. Helpful, honest, and straightforward, the Fiske Guide to Colleges delivers an insider's look at what it's really like to be a student at the "best and most interesting" schools in the United States, plus Canada, Great Britain, and Ireland—so you can find the best fits for you.In addition to detailed and candid stories on each school, you will find: A self-quiz to help you understand what you are really looking for in a college Lists of strong programs and popular majors at each college "Overlap" listings to help you expand your options Indexes that break down schools by state, price, and average debt Exclusive academic, social, and quality-of-life ratings All the basics, including financial aid stats, SAT/ACT scores, and acceptance ratesPlus a special section highlighting the 20 public and private Best Buy schools—colleges that provide the best educational value

In his international bestseller "Leading Change," Kotter provided an action plan for implementing successful transformations. Now, he shines the spotlight on the crucial first step in his framework: creating a sense of urgency by getting people to actually see and feel the need for change.

Artificial intelligence (AI) is becoming increasingly more prevalent in our daily social and professional lives. Although AI systems and robots bring many benefits, they present several challenges as well. The autonomous and opaque nature of AI systems implies that their commercialisation will affect the legal and regulatory framework.0In this comprehensive book, scholars critically examine how AI systems may impact Belgian law. It contains contributions on consumer protection, contract law, liability, data protection, procedural law, insurance, health, intellectual property, arbitration, lethal autonomous weapons, tax law, employment law, ethics,?While specific topics of Belgian private and public law are thoroughly addressed, the book also provides a general overview of a number of regulatory and ethical AI evolutions and tendencies in the European Union. Therefore, it is a must-read for legal scholars, practitioners and government officials as well as for anyone with an interest in law and AI.

An introduction to the central topics of linguistic semantics and the philosophy of language, assuming no special knowledge of philosophy or logic.

I have had only had Springer Spaniels. This is my first Lab & after reading this book I am able to understand why my Lab behaves the way he does," L. NORDENHOLD, USA "As a previous owner of Golden Retrievers & now with a 7 month old bundle of energy, this book is the ideal handbook... Is this book useful? The honest answer is a resounding Yes," MR D. WELLER, UK "This is a very complete & comprehensive book about French bulldogs. I would highly recommend this book to new puppy owners," SUSAN SIMON, Secretary, FRENCH BULL DOG CLUB OF AMERICA "What an excellent book - a must for all Cocker Spaniel owners. What a great idea to have so many breeders give an insight to the life of a Cocker Spaniel," KEITH HENDERSON, UK "Absolutely brilliant book! Highly recommended reading for all new Pug owners, this book has breed specific information on every topic, unlike a lot of handbooks which have generalised dog information with only a small section on the actual breed," S. EVANS, UK
