#1 NEW YORK TIMES BESTSELLER □ PULITZER PRIZE FINALIST □ This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE □ NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review □ People □ NPR □ The Washington Post □ Slate □ Harper's Bazaar □ Time Out New York □ Publishers Weekly □ BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when

the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When Breath Becomes Air is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

A picture book account of the true story that inspired the Winnie-the-Pooh classics follows the experiences of a World War I veterinarian and soldier who rescued a baby bear, made her his regiment's mascot and introduced her to Christopher Robin at the London Zoo.

Waltzing Australia was born out of a dream-and a journey. After walking away from her corporate career, Cynthia Clampitt headed to Australia, to start over, to write, and to test the limits of what she could do. Waltzing Australia recounts that joyous adventure. It is a story about change and about making dreams come true. But more than that, it is about Australia: the history, legends and art, both European and Aboriginal; the beauty, the challenge, the people, the land. From Sydney to

Perth, Tasmania to Darwin, tropics to desert, city to wilderness, Clampitt carries the reader along on an exhilarating grand tour of a fascinating country. With a writing style reminiscent of Annie Dillard, she captures the essence of the land Down Under and invites others to fall in love with Australia.

Ours is an age where solitude tends to be discussed in the context of the 'problem of loneliness'. However in previous ages the capacity to seek fulfillment outside society has been admired and seen as a measure of discernment and inner security. In this lucid and highly readable book, Peter France shows how hermits, from the Taoists and Ancient Greeks to the present day, have something vitally important to say to a society that fears solitude.

The French film director Robert Bresson was one of the great artists of the twentieth century and among the most radical, original, and radiant stylists of any time. He worked with nonprofessional actors—models, as he called them—and deployed a starkly limited but hypnotic array of sounds and images to produce such classic works as *A Man Escaped*, *Pickpocket*, *Diary of a Country Priest*, and *Lancelot of the Lake*. From the beginning to the end of his career, Bresson dedicated himself to making movies in which nothing is superfluous and everything is always at stake. *Notes on the Cinematograph* distills the essence of Bresson's theory and practice as a filmmaker and artist. He discusses the fundamental differences between theater and film; parses the deep grammar of silence, music,

and noise; and affirms the mysterious power of the image to unlock the human soul. This book, indispensable for admirers of this great director and for students of the cinema, will also prove an inspiration, much like Rilke's Letters to a Young Poet, for anyone who responds to the claims of the imagination at its most searching and rigorous.

"We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
