Book Review: Growing Up Digital: The Rise of the Net ...

GROWING UP DIGITAL: The Rise of the Net Generation by Don Tapscott is an examination of the first generation to be bathed in bits since birth. These 88 million children of the baby boomers in the U.S and Canada are combining demographic muscle and digital mastery to become a force for social transformation. In a nutshell, because of their access to the digital media these young people learn, work, think, shop and create differently than their parents.
