Volume 1 covers the period to 1700. The Sixth edition now provides roughly the same amount of coverage for European and non-European regions. Combines unusually strong and thorough coverage of the unique heritage of Asian, African, Islamic, Western, and American civilizations, while highlighting the role of the world's great religious and philosophical traditions. For anyone interested in world civilization or world history.

This two-volume compilation of primary sources in world civilization is based around eight major themes to provide direction and cohesion to the text. Designed to involve students with important historical questions and controversies, the text promotes thoughtful comparisons between world societies that are linked to common problems, events or themes within the same time period
