Expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably. A lot is talked about ignition systems and there is a bewildering choice of expensive aftermarket parts, which all claim to deliver more power. Des Hammill cuts through the myth and hyperbole and tells readers what really works, so that they can build an excellent system without wasting money on parts and systems that simply don't

deliver. Ignition timing and advance curves for modified engines is another minefield for the inexperienced, but Des uses his expert knowledge to tell readers how to optimize the ignition timing of any high-performance engine.

Beginning with a look at the SL model's heritage, this book describes the full development and production history of a modern classic. Covering available models in all the major markets, year-by-year, and including

limited editions, the data is supported by contemporary illustrations, sourced from the factory, plus in-depth appendices.

The 924 Carrera was a homologation model built to qualify the 924 model to race in Group 4. One of the great supercars of the 1980s, the 924 Carrera was considered by many to have better handling characteristics than Porsche's flagship 911. The book features interviews with many of those involved with the car at the time together with race stories, statistics, and a unique exposé of component failures

during racing.

The overhead camshaft single provided the DNA for Ducati motorcycles, but, with little accurate documentation and information available until now, they can be difficult to restore and authenticate. This is the first book to provide an authoritative description of the complete range of Ducati OHC singles.

Although not the fastest or the most powerful Ferrari, the beautiful lines of the Dino have inspired generations of enthusiasts. This book covers the full story of the Dino, from

Pininfarina concept car through to the final production model, illustrated throughout with contemporary material. The book features THE definitive record of the little V6 Ferrari and its Fiat sibling 'Dino', named after Enzo's son. It contains full year-by-year coverage of production models with the American and European markets covered in great detail. There are over 250 contemporary photos, mainly in color, along with contemporary advertising and brochures.
