understand the way the international systems work, as well as how nations engage with each other and view the world. Varying from liberal, equality-centric strategies to straightforward realist concepts, international relations theories are often used by diplomats and international relations experts to dictate the direction that a government may take in regards to an international political issue or concern.

Three Major Theories of International Relations

1. Realism. The theory of realism in international relations generally assumes that the international system is inherently disorderly and relations are anarchic because primary actors are perpetually locked against a struggle for power and security.

This chapter examines the neoliberalist argument that international institutions promote international cooperation. While neoliberalism acknowledges that cooperation can be difficult to achieve in anarchic conditions, it insists that institutions allow states to overcome a variety of collective action impediments. The central concern of neoliberal analysis is how institutions do so, and how ...

~~Tim Dunne~~ — Wikipedia

Anarchy is a central concept in international relations (IR) theory, as such this essay aims to compare and contrast two approaches to anarchy, namely the realist and constructivist approaches.
