Answers much sought after advice on girls' favorite topics including dating, love, friendship, and other important stuff. Chad shines some much-needed light on these major issues for teens. Rather than let their feelings navigate them blindly through their tumultuous adolescence, Chad offers clarity, some surprising revelations, and answers to some of their biggest questions: How do I know who to date? When should I start dating? How should I start dating? Is this really love? And, Why do guys I like just want to be friends? Packed with humor that adds to the sound advice, this book will help teens make better decisions, have healthier relationships, and be more prepared for their futures. Just a

A few things girls will learn include: Five things you need to know about love; Eight dumb dating things even smart people do; Ten reasons why teens are unhappy; and Ten things happy teens do. Any teen can live a happier, healthier life: they just need to hear The Truth. Meets national education standards.

This book will appeal to at least three groups of readers: prospective high school teachers, liberal arts students, and parents whose children are studying high school or college math. It is modern in its selection of topics, and in the learning models used by the authors. The book covers

Some exciting but non-traditional topics from the subject area of geometry. It is also intended for undergraduates and tries to engage their interest in mathematics. Many innovative pedagogical modes are used throughout.

This informative, full-color text takes students step-by-step through the decision-making involved in the pre-production processes of apparel product development---planning, forecasting, fabricating, line development, technical design, pricing, sourcing, and distribution. It demonstrates how these processes must be coordinated to get the right product to market, when consumers want it, and at a
