For over twelve years, Weygandt, Kieso, Kimmel, Trenholm, Kinnear, Barlow Accounting Principles has been praised by both instructors and students across the country for its outstanding visual design, its carefully integrated pedagogy, and its excellent writing style and clarity of presentation. Our main focus continues to be 'Student Success in Accounting' and the new sixth edition package further enables both instructors and students to achieve successful learning outcomes. It introduces challenging accounting concepts through examples that are familiar to the student with a stepped-out pedagogy that breaks down complex topics making the material more manageable. This connection to their everyday lives helps build student motivation, a key driver of student time spent on assignments and ultimately their mastery of the concepts. Accounting Principles, Sixth Canadian Edition enables students to become independent and successful learners by including a variety of additional resources, more opportunities to use technology, and new features that empower students to apply what they have learned in the classroom to the world outside the classroom. The seamlessly integrated digital and print resources to accompany Accounting Principles, Sixth Canadian Edition offer additional tools for both instructors and students in order to help students succeed.

The Demo Docs System of instruction replicates the classroom experience by providing more "I get it" moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or "get it") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course.& On top of this, you can end up getting behind in the course as well, in order to keep everyone on track.& The Demo Docs system helps to recreate the "I get it" moments outside of class-keeping both you and the students on track.
