It was the night of December 4, 1977, a night that changed me forever.' This book presents Dr Arvind Lal's journey as a spiritual seeker and an accidental entrepreneur. "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

The Opium Wars of 1840-1860 were dark chapters of history. Britain went to war to force China to import thousands of tons of opium, to cripple and impoverish that nation. The Opium Wars never really ended. The U.S., like China, was too great for the London money lords to occupy by force. One way America is being brought to heel is by the drug trade. Crime and other social problems in the U.S. and Mexico are massively influenced by drugs and drug dealing. Illicit drugs may now account for as much as \$1 trillion annually in financing for criminal activity and corruption. TOPICS: The East India Company; British role in the drug trade, from the wars on China, the HongShanghai Bank, Bronfmans, Prohibition, and Organized Crime in the U.S. Financial derivatives; Wall St., money laundering; medical marijuana. decriminalization; Soros and IMF links to drugs. Afghan opium; Colombian cartel; terrorism. Russia targeted by Dope, Inc. cocaine, heroin, amphetamines. More than 30 years have passed since the first edition of Dope, Inc. was published, in 1978. Commissioned by Lyndon Larouche, it threatened the world's power structure. It became America's underground best-seller. Dope, Inc. drew the line between American patriots and the British apparatus destroying the USA. The London and Wall Street bankers ran for cover. A mammoth campaign of slander and government dirty tricks tried to bury the authors, because Dope, Inc. revealed the most deeply held secrets of the big names behind the world's illegal narcotics trade. In Venezuela, the leading drug-running families who were exposed in the Spanish-language version, Narcotrafico, S.A., used their political influence to have it banned and confiscated. Financiers scrambled to control the damage of this unprecedented exposure. The Hongkong and Shanghai Banking Corporation was denied a license in New York State because it failed to refute the charges in Dope, Inc, when the state demanded accounting of its hidden profits, silent subsidiaries, and paraphernalia of money-laundering. Now in 2010, Dope, Inc. is completely updated: Soros - Afghanistan - the government and bankers behind the cartels. Today the British-controlled dope trade finances the world's leading terrorist entities - Afghanistan's Taliban, the Chechen rebels, the FARC guerrillas of Colombia. Dope money supports the bankrupt world financial system. A trillion dollars goes through the Cayman Islands, the Isle of Man, Dubai. Speculation makes it trillions more. It sucks the blood of the real economy; and the dope destroys mankind's powers of reason.

Narrating Narcos presents a probing examination of the prominent role of narcotics trafficking in contemporary Latin American cultural production. In her study, Gabriela Polit Dueñas juxtaposes two infamous narco regions, Culiacán, Mexico, and Medellín, Colombia, to demonstrate the powerful forces of violence, corruption, and avarice and their influence over locally based cultural texts. Polit Dueñas provides a theoretical basis for her methods, citing the work of Walter Benjamin, Pierre Bourdieu, and other cultural analysts. She supplements this with extensive ethnographic fieldwork, interviewing artists and writers, their confidants, relatives, and others, and documents their responses to the portrayal of narco culture. Polit Dueñas offers close readings of the characters, language, and milieu of popular works of literature and the visual arts and relates their ethical and thematic undercurrents to real life experiences. In both regions, there are few individuals who have not been personally affected by the narcotics trade. Each region has witnessed corrupt state, police, and paramilitary actors in league with drug capos. Both have a legacy of murder. Polit Dueñas documents how narco culture developed at different times historically in the two regions. In Mexico, drugs have been cultivated and trafficked for over a century, while in Colombia the cocaine trade is a relatively recent development. In Culiacán, characters in narco narratives are often modeled after the serrano (highlander), a romanticized historic figure and sometime thief who nobly defied a corrupt state and its laws. In Medellín, the oft-portrayed sicario (assassin) is a recent creation, an individual recruited by drug lords from poverty stricken shantytowns who would have little economic opportunity otherwise. As Polit Dueñas shows, each character occupies a different place in the psyche of the local populace. Narrating Narcos offers a unique melding of archival and ground-level research combined with textual analysis. Here, the relationship of writer, subject, and audience becomes clearly evident, and our understanding of the cultural bonds of Latin American drug trafficking is greatly enhanced. As such, this book will be an important resource for students and scholars of Latin American literature, history, culture, and contemporary issues.
