“Dunhuang Manuscript Culture” explores the world of Chinese manuscripts from ninth-tenth century Dunhuang, an oasis city along the network of pre-modern routes known today collectively as the Silk Roads. The manuscripts have been discovered in 1900 in a sealed-off side-chamber of a Buddhist cave temple, where they had lain undisturbed for almost nine hundred years. The discovery comprised tens of thousands of texts, written in over twenty different languages and scripts, including Chinese, Tibetan, Old Uighur, Khotanese, Sogdian and Sanskrit. This study centres around four groups of manuscripts from the mid-ninth to the late tenth centuries, a period when the region was an independent kingdom ruled by local families. The central argument is that the manuscripts attest to the unique cultural diversity of the region during this period, exhibiting—alongside obvious Chinese elements—the heavy influence of Central Asian cultures. As a result, it was much less ‘Chinese’ than commonly portrayed in modern scholarship. The book makes a contribution to the study of cultural and linguistic interaction along the Silk Roads.

In addition to facilitating active learning, Organizational Behavior: Key Concepts, Skills & Best Practices meets the needs of those instructors looking for a brief, paperback text for their OB course, who do not want to sacrifice content or pedagogy. This book provides lean and efficient coverage of topics such as diversity in organizations, ethics, and globalization, which are recommended by the Association to Advance Collegiate Schools of Business (AACSB). Timely chapter-opening vignettes, interactive exercises integrated into each chapter, four-color presentation, lively writing style, captioned color photos, cartoons, and real-world in-text examples make Organizational Behavior: Key Concepts, Skills & Best Practices the right choice for today's business/management student. The topical flow of this 16-chapter text goes from micro (individuals) to macro (groups, teams, and organizations). Mixing and matching chapters and topics within chapters in various combinations is possible and encouraged to create optimum teaching/learning experiences.
