highlights one  
of the USGS's  
most important  
and useful  
products, the  
topographic map.  
In 1879, the  
USGS began to  
map the Nation's  
topography. This  
mapping was done

# Access Free Mapping Geolab

at different levels of detail, in order to support various land use and other purposes. As the years passed, the USGS produced new map versions of each area.

# Access Free Mapping Geolab

*topoView*

A topographic map series uses a common

specification that includes the range of cartographic symbols

employed, as well as a standard

geodetic framework that

# Access Free Mapping Geolab

defines the map projection, coordinate system, ellipsoid and geodetic datum. Official topographic maps also adopt a national grid referencing system.
