Pacing Guides. The Pacing Guides for Levels I, II, and III were created in order to provide teachers of those languages with a more specific guide to the teaching of the Virginia Standards of Learning (SOLs) and PWCS curriculum throughout a school year. The Pacing Guide is divided according to the four marking periods and groups the curriculum content in order to allow sufficient time to meet all objectives in a timely manner.

Historically, teachers have exercised considerable autonomy in the day-to-day learning that occurs in their classrooms. Now, it is growing increasingly rare for a teacher to experience this type of professional freedom. In response to high-stakes testing, national and state academic content standards, and most

recently the common core standards, pacing guides are one of the more recent devices schools are using to implement and monitor curriculum. The purpose of this research project is to investigate teacher opinion toward these pacing guides. An online survey called the Pacing Guide Survey was delivered to secondary regular and special education teachers in core subject areas of mathematics, science, social studies, and language arts. The teachers were asked about whether or not they use pacing guides, their attitude and comfort level in using pacing guides, as well as: Information concerning the population of their high school, such as demographics, enrollment, and single or multiple high schools; Building level factors, such

as professional development initiatives, methods of curriculum monitoring, and pacing guide development and revisions processes; teacher factors, such as years teaching, years using pacing guides, confidence in content area, and educational background.

Administrators were also interviewed to form a complete picture of pacing guide development and implementation in the secondary education environment. Quantitative data were analyzed using bivariate Spearman's rank order correlation and qualitative data were analyzed using a combination of thematic data analysis and quasi-statistical methods. Recommendations based on the data collected are: Teachers should be provided with the flexibility to

## Read Online Mathematics Pacing Guide High School Algebra II Trigonometry

address student needs in the classroom. Teacher input into pacing guide development, implementation, and revision process is necessary to ensure that student needs are addressed. Team autonomy is key and teacher teams need to be provided with the necessary support structure to provide meaningful learning experiences for their students.

School districts are now successfully implementing the Rigorous Curriculum Design process to redesign their curricula to fulfill the promise of the Common Core and prepare students for success on the coming
