crossword and word search puzzles in this book cover a wide variety of subjects across the curriculum. A few examples of the topics included are vowel sounds, compound words, holidays, math terms, and astronomy terms.

The present book is the result of the reflection of many individuals in mathematics education on questions such as: Is mathematics education a science? Is it a discipline? In what sense? The reader will find a range of possible answers to these questions, a variety of analyses of the actual directions of research in different countries, and a number of visions for the future of research in mathematics education.
