The modern, unacademic idiom of A.D. Melville's translation opens the way to a fresh understanding of Ovid's unique and elusive vision of reality.

The Metamorphoses of Ovid offers to the modern world such a key to the literary and religious culture of the ancients that it becomes an important event when at last a good poet comes up with a translation into English verse." -John Crowe Ransom ... a charming and expert English version, which is right in tone for the Metamorphoses."-Francis Fergusson This new Ovid, fresh and faithful, is right for our time and should help to restore a great reputation." -Mark Van Doren The first and still the best modern verse translation of the Metamorphoses, Humphries' version of Ovid's masterpiece captures its wit, merriment, and sophistication. Everyone will enjoy this first modern translation by an American poet of Ovid's great work, the major treasury of classical mythology, which has perennially stimulated the minds of men. In this lively rendering there are no stock props of the pastoral and no literary landscaping, but real food on the table and sometimes real blood on the ground. Not only is Ovid's Metamorphoses a collection of all the myths of the time of the Roman poet as he knew them, but the book presents at the same time a series of love poems-about the loves of men, women, and the gods. There are also poems of hate, to give the proper shading to the narrative. And pervading all is the writer's love for this earth, its people, its phenomena. Using ten-beat, unrhymed lines in his translation, Rolfe Humphries shows a definite kinship for Ovid's swift and colloquial language and Humphries' whole poetic manner is in tune with the wit and sophistication of the Roman poet.

The modern, unacademic idiom of A.D. Melville's translation opens the way to a fresh understanding of Ovid's unique and elusive vision of reality.

Ovid's poetical calendar of the Roman year is both a day by day account of festivals and observances and their origins, and a delightful retelling of myths and legends associated with particular dates." --from back cover.

For the 125th anniversary of Kafka's birth comes an astonishing new translation of his best-known stories, in a spectacular graphic package.

During Shakespeare's lifetime, Henry IV was his most popular play. Today, Sir John Falstaff still towers above Shakespeare's other comic inventions. This edition considers the play in the context of various critical approaches, offers a history of the play in performance from Shakespeare's time to ours, and provides useful information on its historical background. Readers will also find detailed commentary on individual words and phrases, and selections from Shakespeare's sources.

A new translation of an important text for Greek mythology used as a source book by classicists from antiquity to Robert Graves, The Library of Greek Mythology is a complete summary of early Greek myth, telling the story of each of the great families of heroic mythology, and the various adventures associated with the main heroes and heroines, from Jason and Perseus to Heracles and Helen of Troy. Using the ancient system of detailed histories of the great families, it contains invaluable genealogical diagrams for maximum clarity.

Ovid's Metamorphoses is one of the most influential works of Western literature, inspiring artists and writers from Titian to Shakespeare to Salman Rushdie. These are some of the most famous Roman myths as you've never read them before-sensuous, dangerously witty, audacious-from the fall of Troy to birth of the minotaur, and many others that only appear in the Metamorphoses. Connected together by the immutable laws of change and metamorphosis, the myths tell the story of the world from its creation up to the transformation of Julius Caesar from man into god. In the ten-beat, unrhymed lines of this now-legendary and widely praised translation, Rolfe Humphries captures the spirit of Ovid's swift and conversational language, bringing the wit and sophistication of the Roman poet to modern readers. This special annotated edition includes new, comprehensive commentary and notes by Joseph D. Reed, Professor of Classics and Comparative Literature at Brown University.

The Golden Ass is a unique, entertaining, and thoroughly readable Latin novel - the only work of fiction in Latin to have survived in its entirety. It tells the story of Lucius, whose curiosity and fascination for sex and magic result in his transformation into an ass. After suffering a series of trials and humiliations, he is ultimately transformed back into human shape by the kindness of the Goddess Isis. This new translation is at once faithful to the meaning of the Latin, whilst reproducing all the exuberant gaiety of the original.
