Developers and distributors assume no responsibility for the use of MIDAS Family Program (midas Civil, midas FEA, midas FX+, midas Gen, midas Drawing, midas SDS, midas GTS, SoilWorks, midas NFX, midas Drawing, midas nGen; hereinafter referred to as "MIDAS package") or for the accuracy or validity of any results obtained from the MIDAS package.

Design Manual

MIDAS is designed to analyse microdust particles collected in the interplanetary - and cometary environment, irrespective of their electrical conductivity and shape by means of atomic force microscopy. The sizes of the particles range from about 4 nm to a few μm . The dust collector includes a mechanism which controls the particle
