Natural Capitalism

Creating The Next

Most businesses still

Access Free

Natural

operate according to a world view that hasn't changed since the start of the Industrial Revolution.

Then, natural resources were abundant and labor was the limiting factor of production. But now, there's a surplus of people, while natural capital--natural

Access Free

resources and the ecological systems that provide vital life-support services--is in decline and relatively expensive.

~~Natural Capitalism--
Creating the Next
Industrial Revolution~~
Natural capitalism is a way of thinking that seeks to apply market principles to all

Access Free

Natural

sources of material value, most

importantly natural resources. The

authors have two related goals: first, to show the vast array of ecologically smart options available to businesses; second, to argue that it is possible for society and industry to adopt them.
