School is over. Forever. And Cole is ready for real life to start. His new apprenticeship as a mechanic promises enough money to get a little flat in town, close to his pack but not too close. And who knows what else he could do with that freedom? But before that, there's a camping trip to the woods with his best mates, TJ and Ari. TJ has been Cole's best friend since before school and he's almost as good getting out of trouble as getting into it. Ari came later, but Cole can't imagine life without his sharp intelligence and sweet smiles either. If you are a guy who likes guys, they don't make them easier on the eyes than TJ and Ari, but Cole is just fine keeping that to himself. They have meat to grill, some beer, and three nights to say goodbye to their childhood. Everything is going great until Cole starts feeling odd. Within a few hours his whole life is turned upside down: He is an omega. He is in heat. And he is alone in the woods with two alphas. There is no going back from that night and Cole isn't sure their friendship can survive what they shared, but one thing is for certain: an omega cannot walk away from his fate.

After nearly a decade of brutal warfare, three mighty factions—the enigmatic protoss, the savage zerg, and the terrans, humanity's descendants in the sector—have entered a cease-fire, but the peace is tenuous at best. When the sudden restoration of an incinerated planet is brought to light, tensions erupt. Neutrality swings back to hostility, and old enemies are accused of developing biological weapons to reignite the bitter conflict. An expedition of terran and protoss soldiers and researchers is deployed to investigate the mysterious zerg planet and its inhabitants' intentions. But the lush alien landscape is host to other denizens, creatures shrouded in shadow, and should they be unleashed, they will change the fate of the entire galaxy.

Sanguis Noctis Book Two, Sequel to Blood Howl When David, an old contact and sometimes friend, hires Jed Walker to look into a series of seemingly unrelated disappearances in Cairo, Jed jumps at the chance to show his partner, Redford Reed, more of the world he's been missing. David's boyfriend, supernatural expert and resident stuffy professor Victor Rathbone, joins them in their journey to Egypt, which holds many more dangers and mysteries than Jed ever expected. Hidden natures resurface, relationships collide, and instincts are stretched to their breaking point. What seems to be a simple case turns out to be anything but. David may have called for help, but he has his own suspicions about who's behind the kidnappings-suspicions that, along with clashing personalities, make getting to the bottom of the mystery difficult. While Jed and Redford grow more intimate and trusting with each new obstacle in their path, David and Victor struggle not to lose their trust in each other in the face of their differences. As the four close in on the kidnappers, David is forced to face the one thing more dangerous than the mastermind behind the disappearances: himself.
