Neurology Clinical Practice Guidelines - 09/2020

This practice guideline updates a 2001 American Academy of Neurology (AAN) practice parameter with recommendations concerning the diagnosis and treatment of MCI. 5 The guideline focuses on presumed idiopathic or neurodegenerative MCI—particularly relating to AD—rather than mild cognitive changes relating to potentially reversible causes (e.g., metabolic, vascular, systemic, or psychiatric disorders) or Parkinson disease—MCI or vascular cognitive impairment, as these may have different ...

Authors | Neurology Clinical Practice

Clinical practice guidelines are typically based on 1) the best available peer-reviewed scientific evidence, 2) a consensus of

expert opinion, or 3) a combination of these two sources. 3 The AAN ' s guideline development process aims at the evidence-based category, with little use for expert opinion.
