Characteristics to note in the rubric: Language is descriptive, not evaluative. Labels for degrees of success are descriptive ("Expert" "Proficient", etc.); by avoiding the use of letters representing grades or numbers representing points, there is no implied contract that qualities of the paper will "add up" to a specified score or grade or that all dimensions are of equal grading value.

This engaging text shows students what markers look for in their work and helps them to develop the skills they need to produce a first-class essay. It focuses on all the core elements of effective essay writing, including devising a question, critical thinking, engaging with the literature and structuring an essay. Chapters include clear and concise guidance on meeting marking criteria, illustrated with real students' essays from a range of disciplines, and activities which encourage students to put their new skills into practice. This is an essential resource for all university students for whom essays and coursework form part of their assessment. It is also ideal for further education students and those preparing for university-level study.

A guide to an evidence-based approach for teaching college-level psychology courses Teaching Psychology offers an evidence-based, student-centered approach that is filled with suggestions, ideas, and practices for teaching college-level courses in ways that contribute to student success. The authors draw on current scientific studies of learning, memory, and development, with specific emphasis on classroom studies. The authors offer practical advice for applying scholarly research to teaching in ways that maximize student learning and personal growth. The authors endorse the use of backward course design, emphasizing the importance of identifying learning goals (encompassing skills and knowledge) and how to assess them, before developing the appropriate curriculum for achieving these goals. Recognizing the diversity of today's student population, this book offers guidance for culturally responsive, ethical teaching. The text explores techniques for teaching critical thinking, qualitative and quantitative reasoning, written and oral communication, information and technology literacy, and collaboration and teamwork. The authors explain how to envision the learning objectives teachers want their students to achieve and advise how to select assessments to evaluate if the learning objectives are being met. This important resource: Offers an evidence-based approach designed to help graduate students and new instructors embrace a student-centered approach to teaching; Contains a wealth of examples of effective student-centered teaching techniques; Surveys current findings from the Scholarship of Teaching and Learning; Draws on the American Psychological Association's five broad goals for the undergraduate Psychology major and shows how to help students build life-long skills; and, Introduces Universal Design for Learning as a framework to support diverse learners. Teaching Psychology offers an essential guide to evidence-based teaching and provides practical advice for becoming an effective teacher. This book is designed to help graduate students, new instructors, and those wanting to update their teaching methods. It is likely to be particularly useful for instructors in psychology and other social science disciplines.

Updated to align with the American Psychological Association and the National Council of Accreditation of Teacher Education accreditation requirements. Focused on increasing the credibility of research and evaluation, the Fifth Edition of Research and Evaluation in Education and Psychology: Integrating Diversity with Quantitative, Qualitative, and Mixed Methods incorporates the viewpoints of various research paradigms into its descriptions of these methods. Students will learn to identify, evaluate, and practice good research, with special emphasis on conducting research in culturally complex communities, based on the perspectives of women, LGBTQ communities, ethnic/racial minorities, and people with disabilities. In each chapter, Dr. Donna M. Mertens carefully explains a step of the research process—from the literature review to analysis and reporting—and includes a sample study and abstract to illustrate the concepts discussed. The new edition includes over 30 new research studies and contemporary examples to demonstrate research methods including: Black girls and school discipline: The complexities of being overrepresented and understudied (Annamma, S.A., Anyon, Y., Joseph, N.M., Farrar, J., Greer, E., Downing, B., & Simmons, J.) Learning Cooperatively under Challenging Circumstances: Cooperation among Students in High-Risk Contexts in El Salvador (Christine Schmalenbach) Replicated Evidence of Racial and Ethnic Disparities in Disability Identification in U.S. Schools (Morgan, et. al.) Relation of white-matter microstructure to reading ability and disability in beginning readers (Christodoulou, et. al.) Arts and mixed methods research: an innovative methodological merger (Archibald, M.M. & Gerber, N.)

The Handbook of the Teaching of Psychology is a state-of-the-art volume that provides readers with comprehensive coverage and analysis of current trends and issues, basic mechanics, and important contextual variables related to effective teaching in psychology. Uses concise and targeted chapters, written by leading scholars in the field, to explore a myriad of challenges in the teaching of psychology. Employs a prescriptive approach to offer strategies and solutions to frequently occurring dilemmas. Covers the gamut of current topics of interest to all current and future teachers of psychology.

In 1976, a small group of psychologists urged that more research be done on aspects of health and health care outside the domain of mental health. Today, health psychology is one of the fastest growing divisions of the American Psychological Association; journals and textbooks in increasing numbers are another signal of rapid growth in this field.

Master APA style and format quickly and easily! Written by experienced psychology instructors Beth M. Schwartz, R. Eric Landrum & Regan A.R. Gurung, who are respected members of the APA's Teaching of Psychology division, An Easy Guide to APA Style: Second Edition provides an easy alternative for anyone struggling with APA style. Written in a clear, conversational, and humorous style, this book presents easy-to-understand explanations of how to write research papers, cite research, and do any work requiring APA format. The authors simplify the process with easy-to-follow advice, tips, and visual representations of how to use APA style. This updated edition includes easy-to-read screen shots as well as guidance on where to find answers to commonly asked student questions.

By presenting discussions on professional development, and emphasizing the challenges and triumphs experienced by Black professors across disciplines, this book provides advice for junior Black scholars on how to navigate academe and tackle the challenges that Black scholars often face.

This book takes a developmental perspective at the use of scoring rubrics to assess student work. Citing developmental characteristics of each age, the author presents examples and adaptations of assessment rubrics on a variety of subjects for teachers from kindergarten through adult/college. After a presentation of foundation information on rubrics, separate chapters are devoted to each grade level from primary through adult. Written so that each chapter can be addressed independently, the book provides additional chapters devoted to assessing technological topics and using rubrics with students with special needs. The final chapters provide practical information to help teachers to create their own rubrics and to convert rubric scores to letter grades. An updated annotated listing of recommended rubric websites is included.

Focused on improving student learning, the Degree Qualifications Profile (DQP) and related Tuning process work together to inform curricular design, classroom assignments, and approaches to assessment. Covering the current field and drawing on numerous examples to illustrate the implications and challenges for IR professionals, this volume provides: an overview of the work, discussions outlining what the DQP and Tuning are, how IR has been involved, and what the future might hold for IR in these efforts. This is the 165th volume of this Jossey-Bass quarterly report series. Timely and comprehensive, New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management.

Third edition of popular textbook for writing, English, and language-arts methods courses provides a comprehensive survey of theories, research and methods associated with teaching composition successfully. Includes examples and pedagogical aids.
