Public participation in environmental decision-making has become an indelible feature of many environmental regulatory systems worldwide over the past few decades.

(PDF) Public Participation in Environmental Decision Making

There is a growing body of literature on public participation in environmental assessment and decision-making, within which several authors (e.g. Antunes et al., 2009; NRC, 2008) have proposed a set of critical issues to be considered in the setup, design and management of participatory processes.

Public participation in environmental decision-making

Proponents of public participation argue that those who must live with the outcome of an environmental decision should have some influence on it. Critics maintain that public participation slows decision making and can lower its quality by including people unfamiliar with the science involved.

Public Participation in Environmental Assessment and ...

Reflecting increased attention to the importance of the public's role in environmental decision-making, the National Research Council (NRC) recently concluded that public involvement "is critical to ensure that all relevant information is included, that it is synthesized in a way that addresses parties' concerns, and that those who may be affected by a risk decision are sufficiently well informed and involved to participate meaningfully in the decision" (NRC, 1996).

Public Participation in Environmental Decisions: An ...

The Convention, which set out minimum requirements for public participation in various categories of environmental decision-making, calls upon signatory states to " guarantee the rights of access to information, public participation in decision-making, and access to justice in environmental matters in accordance with the provisions of this Convention " (UNECE, 1998).

Public participation in environmental impact assessment ...

The Aarhus Convention and its Protocol on PRTRs empower people with the rights to access information, participate in decision-making in environmental matters and to seek justice. They are the only legally binding global instruments on environmental democracy.

Public Participation - Home

The chapter describes and analyzes the way that federal agencies have involved the public – particularly, low-income and minority individuals, and the groups that represent them – in environmental decision-making, which is an important part of government efforts to achieve procedural justice.

Public Participation and Environmental Justice: Access to ...

The United Nations Economic Commission for Europe (UNECE) Convention on Access to Information, Public Participation in Decision-Making and Access to Justice in Environmental Matters (pdf ~50K) was adopted on 25 June 1998 in the Danish city of Aarhus (Århus) at the Fourth Ministerial Conference as part of the "Environment for Europe" process. It entered into force on 30 October 2001.

Aarhus Convention - Environment - European Commission

The UNECE Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters, usually known as the Aarhus Convention, was signed on 25 June 1998 in the Danish city of Aarhus. It entered into force on 30 October 2001. As of March 2014, it has 47 parties—46 states and the European Union. All of the ratifying states are in Europe and ...

Aarhus Convention - Wikipedia

- Public participation in environmental decision-making includes both formal participation processes ( " invited spaces " ) and mobilization by engaged citizens ( " created spaces " ).
- Policy-makers should invest resources in the capacity building necessary to

facilitate equitable and inclusive participation.

Making space: how public participation shapes ...

Provisions for public participation in environmental decision-making are furthermore to be found in a number of other environmental directives, such as Directive 2001/42/EC of 27 June 2001 on the assessment of certain plans and programmes on the environment (see also the " environmental assessment " homepage) and Directive 2000/60/EC of 23 October 2000 establishing a framework for Community action in the field of water policy (see also the " Water Framework Directive " homepage).

Legislation - Aarhus Convention - Environment - European ...

When conducting meaningful public participation, an agency will gather input from a wide spectrum of stakeholder interests, resulting in a wide range of views and concerns and providing fair treatment, meaningful involvement and social inclusion for all people regardless of race, color, national origin, sexual orientation or income, with respect to the development, implementation, and decisions made through the public participation process.

Public Participation Guide: Introduction to Public ...

Public participation in environmental decision-making has become an indelible feature of many environmental regulatory systems world-wide over the past few decades.

Public Participation in Environmental Decision-making

The rationales for public participation in environmental decision-making are multiple and nuanced, and are generally based upon overlapping justifications. 16 A turn to participatory procedures is inherent in the quest for democratic legitimacy of decision-making processes and their outcomes. 17 People have the right to be informed and participate in shaping decisions that will affect their world.
