HandlingPRO is used for material handling applications including load/unload, packaging, assembly and material removal. Features of HandlingPRO include CAD to Path programming, conveyor line tracking, machine modeling and programming.

Robust ROBOGUIDE Simulation Software | FANUC America
HandlingPRO is a member of FANUC Robotics' ROBOGUIDE family of offline robot simulation software products built on the Virtual Robot Controller. HandlingPRO allows users to simulate a robotic process in 3-D space or conduct feasibility studies for robotic applications without the physical need and expense of a prototype work cell setup.
