RTCM SC-104 is a standard that defines the data structure for differential correction information for a variety of differential correction applications. It was developed by the Radio Technical Commission for Maritime Services(RTCM) and has become an industry standard for communication of correction information.

DGNSS Standards - Navipedia

RTCM 10403.1 is written in a database format, loosely patterned after the recent NMEA 2000 standard. Whereas the NMEA standard is written for a networked set of different electronic units, the Differential GNSS Version 3 standard is written for a centralized distribution of data.

Key Features of GNSS Raw Data Streams (RTCM Format)

2.3.1 For precise real-time position determination with an accuracy 2 cm (horizontal RMS) EUPOS provides network RTK correction. 2.3.2 The user interface for EUPOS Network RTK consists of: 2.3.2.1 RTCM 10403.1 standard data format; 2.3.2.2 RTCM 10402.3 standard data format (non-physical reference station) for ensuring backward

Technical Standards - EUPOS

Standardized RTCM-SSR Messages for GPS and GLONASS were first published in "RTCM STANDARD 10403.1 with Amendments 1-5, July 1, 2011". Only RTCM stage 1 messages have so far been standardized and out of those, only the ones that cover GPS and GLONASS.

IGS State Space Representation (SSR) Format

amended RTCM 10403.2, the well-known Ver-sion 3 standard for Differential Global Navigation Satellite System Services, which supports very high accuracy navigation and positioning through a broadcast from a reference station to mobile receivers," says Ferguson. "The commit-tee recognized that new constellations—Galileo, QZSS, and BeiDou—and new signals would soon be arriving and our ...

RTCM - Shine Micro, Inc

RTCM Standard 10403.1 is the globally used standard for sending the correction data to a rover. If a TV station transmits the RTK measurements in the RTCM format, all the rovers in the coverage area with RTCM-capable ATSC 3.0 receivers can use the information to enhance their GPS location estimates.
