The organisation aims to reduce car use by encouraging shared transport and commuter behaviour change. But it has warned the Environment, Climate Change and Land Reform Committee that COVID-19 has presented 'huge challenges' in getting people to change their transport habits. New proposals include giving 'mobility credits' to people who trade in older, high-polluting cars to be used on public transport or shared initiatives.

~~CoMoUK calls for shared transport schemes to reduce car ...~~

Shared transport refers to a demand-driven vehicle-sharing process where travelers share a vehicle, either at the same time (e.g., ride-sharing) or over time (e.g., bike-sharing or car-sharing). In this arrangement, travelers share the cost of their journey, providing a hybrid between public transportation and private vehicle use.
