Stateflow. Stateflow © provides a graphical language that includes state transition diagrams, flow charts, state transition tables, and truth tables. You can use Stateflow to describe how MATLAB © algorithms and Simulink © models react to input signals, events, and time-based conditions. Stateflow enables you to design and develop supervisory control, task scheduling, fault management, communication protocols, user interfaces, and hybrid systems.

A significant feature when using Enterprise Architect's SysML simulation is the ability to generate MATLAB Stateflow diagrams to be run under Simulink, allowing you to guide your SysML simulations using StateMachines modeled in Enterprise Architect that are translated to Stateflow diagrams. The Stateflow diagrams use elements and connectors that have close equivalents to the OMG StateMachine standard, such as States and Transitions.
