Seth and his little brother Henry haven't had the most stable of upbringings. Their father has been in and out of jail; their mother took off years ago and hasn't been seen since. Life is constantly uncertain - but a twist of fate could be just what they need. August stopped drinking the day his son died. While on a journey that's very close to his heart, a breakdown leaves him stranded in a small town and at the mercy of the local mechanic - Seth and Henry's father. But then August is presented with an offer he doesn't expect - take the two boys with him for the summer, and pay no charge for the repairs. As the unlikely trio set out on their road trip, the most unlikely, unforgettable friendship begins to take shape. Take Me With You is a moving, thought-provoking story that fans of Jodi Picoult, Susan Lewis or Diane Chamberlain will love, or the perfect read for those looking for something special to curl up with.

For readers of Rupi Kaur (*Milk and Honey*) and Cheryl Strayed, a book small enough to carry with you, with messages big enough to stay with you, from one of the most quotable and influential poets of our time. Andrea Gibson explores themes of love, gender, politics, sexuality, family, and forgiveness with stunning imagery and a fierce willingness to delve into the exploration of what it means to heal and to be different in this strange age. *Take Me With You*, illustrated throughout with evocative line drawings by Sarah J. Coleman, is small enough to fit in your bag, with messages that are big enough to wake even the sleepest heart. I watch. I study. I prowl. I hunt. I always go in with a plan. A set of rules for myself. I don't take unnecessary risks. That's how I've been able to evade capture all these years. But there's something about this girl that is different than the others. When I finally meet her, the rules become a blur. And I break the most important one of all--I take her with me. ----- It's just my imagination--that feeling of being watched. That those icy eyes-- a vivid turquoise with a distinct golden fleck--aren't watching me. It's just stress. I am the person everyone relies on. Maybe that's why I haven't been feeling so content with my life lately. Why I dream those eyes belong to someone who can tear me away from all of my responsibilities. But

these are just shameful fantasies, never meant to breach reality. Then one night, the dream comes true, only it's a horrific nightmare. Now, I only have one task: survival. 124k words. Trigger warning: If you need one, this is really not the book for you.

"Repeatedly surprising and genuinely chilling." - E. Lockhart, bestselling author of *We Were Liars* and *Genuine Fraud* From the acclaimed author of *The Leaving* comes a new psychological thriller that challenges our trust in the electronic devices we keep close. Eden, Eli, Marwan, and Ilanka barely know each other beyond having a class or two together. But when they are all summoned via messaging app to an empty classroom after school, they find a small cube sitting on a desk. Its sides light up with rules for them: Do not tell anyone about the device. Never leave the device unattended. And then, Take me with you . . . or else. At first they think it's some kind of prank or a social experiment orchestrated by the school administration. Still, they follow its instructions until the newly-formed group starts to splinter. Nobody has time for these games--their lives are complicated enough. But the device seems increasingly invested in the private details of their lives. And disobeying its rules has scary--even life-threatening--consequences . . . This timely thriller probes our dependence on personal technology and challenges the notion that our devices are keeping us connected. The truth may very well be the opposite.

Kindred Powell's youth is marked by a secret that her white mother and Black father kept from her. After her father Carl's unjust incarceration and her mother's death from illness, Kindred moves from Los Angeles to New York in a desperate search for peace. There, she finds her girlfriend Nautica, a career in sex work, and a kinky boy toy named Griffin. But when Carl goes missing from LA's Skid Row, Kindred must drop everything to find him.

During the spring of my fourteenth year, I ran away from home. On a cold night in early February, I disappeared into a Kansas snowstorm. My family lived outside Kansas City. For much of our time together, Dad preached at Edwardsville Christian Church. We lived in the parsonage, a two-bedroom box just south of the railroad tracks separating the white and black parts of town. As the Civil Rights movement heated up, Mom crossed the tracks whenever she could. For that, and for other indiscernible reasons, Dad beat her. My story begins during America's Civil Rights movement, a time when my family fell apart and my future became a struggle between parents and ways of life. Much of my struggle took place within my father's house. In running away, I found a new life. But I wasn't alone. My journey also marked a rebirth for mom and for Jefferson Jackson, the black Baptist preacher who became my father and who raised me. Together, we lived in hiding and in poverty. From that beginning, I've risen to the highest levels of international charity, serving as senior vice president of World Vision U.S. and vice president of PATH before joining Global Impact as CEO. Take Me with You delivers a first-person narrative of a boy who found his future by running away. My childhood and escape from abuse has influenced my present work and driven a personal inspiration to leave a lasting mark on humanity. Today, as the CEO and President of Global Impact, I've made a career of trying to stop cycles of abuse, racism, and inequality. I'm the sum of my story, this memoir rooted in love, faith, and moral courage. Take Me with You is one

boy's story about choosing love, forgiveness, and the charity within—and about choosing to be positive. *Take Me with You* is a call to action to help those in need, especially children. As the statistics reveal, there is an alarming need both in the United States and throughout the world: □ In 2013, 14.7 million children under the age of 18 were in poverty in the America □ More than one in three African American children live in food-insecure households □ Today, nearly 18,000 children under age 5 will die of mostly preventable causes, such as diarrhea, malaria, and pneumonia. This translates to more than 6.5 million per year □ Globally, nearly half of under five deaths are attributable to undernutrition □ Globally, 51 million under-five-year-olds were wasted (malnourished) and 17 million were severely wasted in 2013 □ 4 in 10 children fail to meet minimum learning standards worldwide □ Each year, between 2000 through the present, there have been at least 10 million children under age 18 who had lost either one or both parents to AIDS □ In 2013, 4 in 5 deaths due to malaria were in children under five I hope that my story will inspire you and encourage you to do whatever you can to change a life for the better. All children—whether in the United States or in third-world countries—deserve to have a fighting chance in life. You have the choice to live your life in a way that will change another person's life for the better, and maybe transform your own along the way. Go ahead, make your mark.

Carlos Frías, an award-winning journalist and the American-born son of Cuban exiles, grew up hearing about his parents' homeland only in parables. Their Cuba, the one they left behind four decades ago, was ethereal. It existed, for him, only in their anecdotes, and in the family that remained in Cuba -- merely ghosts on the other end of a telephone. Until Fidel Castro fell ill. Sent to Cuba by his newspaper as the country began closing to foreign journalists in August 2006, Frías begins the secret journey of a lifetime -- twelve days in the land of his parents. That experience led to this evocative,

spectacular, and unforgettable memoir. *Take Me With You* is written through the unique eyes of a first-generation Cuban-American seeing the forbidden country of his ancestry for the first time. *Take Me With You* provides a fresh view of Cuba, devoid of overt political commentary, focusing instead on the gritty, tangible lives of the people living in Castro's Cuba. Frías takes in the island nation of today and attempts to reconstruct what the past was like for his parents, retracing their footsteps, searching for his roots, and discovering his history. The book creates lasting and unexpected ripples within his family on both sides of the Florida Straits -- and on the author himself.

Lauren Kelly, with amazing power and authority, explores the secret kinship of "soul mates," in a mysterious and demonic love story. Lara Quade, a disaffected intellectual associated with a prominent Princeton research center, is a young woman whose physical beauty has been scarred in a childhood accident. She is jarred out of the routine of her life by a seemingly chance meeting with a young man named Zedrick Dewe, whom she seems to know somehow as he in turn seems to know her. What is the connection between them? Who has brought them together? And why are they drawn so powerfully to one another? Their encounter leads to a highly charged erotic experience that takes an abrupt turn from tender to violent, predictable to terrifying. And from this initial episode springs a sequence of inexplicable events and revelations so shocking that they lead Lara, long in denial about her life, to uncover the truth about the buried hurt and rage in the tortured past of her family.
