Book (starred review) Sixteen-year-old Starr Carter moves between  
two worlds: the poor neighborhood where she lives and the fancy  
suburban prep school she attends. The uneasy balance between  
these worlds is shattered when Starr witnesses the fatal shooting of  
her childhood best friend Khalil at the hands of a police officer.  
Khalil was unarmed. Soon afterward, his death is a national  
headline. Some are calling him a thug, maybe even a drug dealer  
and a gangbanger. Protesters are taking to the streets in Khalil's  
name. Some cops and the local drug lord try to intimidate Starr and  
her family. What everyone wants to know is: what really went down  
that night? And the only person alive who can answer that is Starr.

But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven’s story in *Concrete Rose*, Angie Thomas's powerful prequel to *The Hate U Give*.

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or

"collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

A New Yorker writer's intimate, revealing account of Tupac Shakur's life and legacy, timed to the fiftieth anniversary of his birth and twenty-fifth anniversary of his death. In the summer of 2020, Tupac Shakur's single "Changes" became an anthem for the worldwide protests against the murder of George Floyd. The song became so popular, in fact, it was vaulted back onto the iTunes charts more than twenty years after its release—making it clear that Tupac's music and the way it addresses systemic racism, police brutality, mass incarceration, income inequality, and a failing education system is just as important now as it was back then. In *Changes*, published to coincide with the fiftieth anniversary of Tupac's birth and twenty-fifth anniversary of his death, Sheldon Pearce offers one of the most thoughtful and comprehensive

accounts yet of the artist's life and legacy. Pearce, an editor and writer at The New Yorker, interviews dozens who knew Tupac throughout various phases of his life. While there are plenty of bold-faced names, the book focuses on the individuals who are lesser known and offer fresh stories and rare insight. Among these are the actor who costarred with him in a Harlem production of A Raisin in the Sun when he was twelve years old, the high school drama teacher who recognized and nurtured his talent, the music industry veteran who helped him develop a nonprofit devoted to helping young artists, the Death Row Records executive who has never before spoken on the record, and dozens of others. Meticulously woven together by Pearce, their voices combine to portray Tupac in all his complexity and contradiction. This remarkable book illustrates not only how he changed during his brief twenty-five

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of
