The last time Tad saw Scott, the ripped physical trainer left him with quite a lot to think about. And that's pretty much all Tad's been doing for nearly two weeks straight. At his wit's end, he seeks Scott out, voluntarily, on his own terms. Will the completely different setting offer what he's seeking; proof that their exchange's unexpected turn was just a random mishap?

One straight college senior chilling at a frat party. One unlucky round of high-stakes poker. Now, to pay his dues, Tad must spend an hour in the basement of his victors' physical trainer, Scott, who happens to be a part-time Dom as well. Playful and sexy, he introduces Tad to his flogger. Despite Tad's efforts to remain unaffected, Scott wrenches his dark pleasure higher. Raw, kinky lust. Forbidden need. Then mind-blowing, out-of-this-world sex. When Tad finally touches down from his scandalous high, his world looks completely different. Because now he can't get Scott out of his system, and Scott seems to feel the same way. Unfortunately, his hesitancy wears heavy on Scott's heart and now Tad risks losing him forever. Experience Tad's journey of erotic self-discovery as, time and again, he seeks out the man who's upended his world... and his heart. Warning: Erotic romance, containing graphic gay sex. Intended for mature audiences only.

Nira. Astrum Industries' newest charted planet. Freshly discovered. Wholly unexplored. But that won't be the case for long. Led by Captain Alec Hamlin, a team of explorers make an emergency landing and are soon confronted by their first Niran native. A huge male Krie packed with muscle and bearing small, black horns and fangs. Fortunately, he's friendly. Or so he lets them believe. With the help of his pack, the Krie takes Alec's team captive, intending to sell them for profit. But these Nirans aren't just shrewd, they're arrogant and domineering. And most of all, extremely sexual. Which explains why, on their journey to peddle their new wares, they feed Alec's team a powerful aphrodisiac. Nothing like some decadent entertainment on the side. Soon the team finds themselves feverishly trying to resist the growing urge to get physical with their captors. But as passion prevails and unexpected bonds form, so much more is suddenly at stake. With no time left, will a shift in Krie perspective be enough to change the fate of Alec's team? Warning: Contains mild dub/con elements, and explicitly scorching gay sex with

exotic and shamelessly kinky males of otherworldly descent.

Love. The most powerful force in existence, but also the most ruthless. Cunning and deceptive. Man's greatest Achilles heel. Leaving all who embrace it weak and vulnerable. At least that's how Dom-for-hire Max Kelley sees it, after the love of his life knocked him on his ass. A brutal blow that not only stole his breath, but decimated his ability to trust. Turning him cold and cynical. The TKO he never saw coming. Love. A mistake Max won't ever make again. Meaning no more relationships-not exactly a hardship. Just the thought of dating makes him queasy, and one of the reasons he doms for a living. To sexually engage without the poison of intimacy. The other reason? To keep his demons sated. With whips and chains, and scandalous kink. A fiery mix that always hits the spot. That is, until a bright-eyed beauty walks into his life and refuses to leave. Sean Matthews. College senior and flirt extraordinaire. Max's newest-and greenest-client sub. Man, is he delicious; able to push Max's buttons, able to make him crave the things he knows he shouldn't. Sound the alarm, this can only mean trouble. Unfortunately, deterring Sean proves virtually impossible, and now Max finds himself at a crossroads. Man up and kick his favorite sub to the curb... or succumb to his own buried desires. ** Warning: Contains references to sensitive matters involving teens, as well as mentions pertaining to child abuse, that some might find disturbing. This BDSM romance also contains intensely explicit scenes both inside and out of the dungeon.

This is the book that started it all! The basis for the smash hit Tony Award-winning Broadway musical, Gregory Maguire's breathtaking New York Times bestseller Wicked views the land of Oz, its inhabitants, its Wizard, and the Emerald City, through a darker and greener (not rosier) lens. Brilliantly inventive, Wicked offers us a radical new evaluation of one of the most feared and hated characters in all of literature: the much maligned Wicked Witch of the West who, as Maguire tells us, wasn't nearly as Wicked as we imagined.

The thrills continue in the second action-packed adventure in the #1 New York Times bestselling Beyonders trilogy. After the cliffhanger ending of A World Without Heroes, Jason is back in the world he's always known—yet for all his efforts to get home, he finds himself itching to return to Lyrian. Jason knows that the shocking truth he learned from Maldor is precious information that all of his friends in Lyrian, including Rachel, need if they have any hope of surviving and defeating the evil emperor. Meanwhile, Rachel and the others have discovered new enemies—as well as new abilities that could turn the tide of the entire quest. And as soon as Jason succeeds in crossing over to Lyrian, he's in more danger than ever. Once the group reunites, they strive to convince their most-needed ally to

join the war and form a rebellion strong enough to triumph over Maldor. At the center of it all, Jason and Rachel realize what roles they're meant to play—and the answers are as surprising as they are riveting.

Love unearthed his heart from the cold, hard ground. Now comes the fight to revive it. Love. Just when Max Kelley thought he'd eradicated it from his life for good it snuck back in, in the form of his beautiful new sub, Sean. Something that Max is far from happy about. In fact, he fights it tooth and nail. Having his world decimated was hell on earth, an experience he'd go to any lengths to avoid repeating. Problem is, while his head is determined to protect his heart, his heart can't stop thinking about Sean. Sean, his perfect sub, his perfect match, his perfect everything. Which makes him that much more of a threat. Were Max to claim him and then lose him, the devastation would be far greater than even Kevin's death. So, in order to ensure his heart and soul stay intact, he must once again eradicate love from his life. Eradicate Sean from his world. But Sean is a scrapper, just like Max, and refuses to give up without a fight. In their final showdown of fiery passion and wills, whose heart will come out in one piece? Warning: This erotic, gay, BDSM romance contains intensely explicit sexual scenes both inside and out of the dungeon. ** Note from the author: In keeping with the promise I made to my Upending Tad devotees, I've included a small side story with Tad and Scott in book 2 where we delve a bit further into the developments of their relationship, and all the wonderful ways they've been keeping each other's hearts pounding. So, be prepared for two more character point of views! Tad and Scott aren't going anywhere. XX0

From the author of the New York Times bestseller *The Inevitable*— a sweeping vision of technology as a living force that can expand our individual potential In this provocative book, one of today's most respected thinkers turns the conversation about technology on its head by viewing technology as a natural system, an extension of biological evolution. By mapping the behavior of life, we paradoxically get a glimpse at where technology is headed-or "what it wants." Kevin Kelly offers a dozen trajectories in the coming decades for this near-living system. And as we align ourselves with technology's agenda, we can capture its colossal potential. This visionary and optimistic book explores how technology gives our lives greater meaning and is a must-read for anyone curious about the future.

How Creativity Happens In The Brain is about the brain mechanisms of creativity, how a grapefruit-sized heap of meat crackling with electricity manages to be so outrageously creative. It has a sharp focus: to stick exclusively to sound, mechanistic explanations and convey what we can, and cannot, say about how brains give rise to creative ideas.
