“In *The Battle for Justice in Palestine*, Ali Abunimah—the most astute commentator writing on Palestine today—bursts the leaky myths of Israeli exceptionalism while carefully examining where the battle for Palestine is currently being waged. Forget the endless “peace process,” which has ushered in little more than massive economic exploitation, tragic environmental degradation, and servile and destructive politics.

Ali Abunimah provides an effective strategy for advancing the struggle for a just, single-state solution in Palestine.

When President Reagan nominated Robert Bork to the Supreme Court, it was the spark that fueled a months-long firestorm during which liberals and conservatives battled fiercely over Reagan’s choice, each trying to gain control of the nation’s judicial future. The American public, captivated by this struggle for power, weighed in with an unprecedented outpouring of mail and telephone calls to the United States Senate arguing both pro- and con- positions. Based on scores of interviews with key figures and a shrewd analysis of the issues, then-Boston Globe reporter Ethan Bronner chronicles this engrossing story of a titanic struggle for political power. It features key players such as Senators Joseph Biden and Edward Kennedy, with the latter leading the fight against the appointment using savvy Madison Avenue style strategies; a Justice Department desperate to hold its ground; a shocked White House staff, caught off-guard; and of course Bork himself, who insisted that “the process of confirming justices for our nations highest court has been transformed in a way that should not and indeed must not be permitted to occur again.” Featuring a new epilogue, “Where Are They Now?”

In 1981, when Raymond Abbott was a twelve-year-old sixth-grader in Camden, New Jersey, poor city school districts like his spent 25 percent less per student than the state’s wealthy suburbs did. That year, Abbott became the lead plaintiff in a landmark class-action lawsuit demanding that the state provide equal funding for rich and poor schools. Over the next twenty-five years, as the non-profit law firm representing the plaintiffs won ruling after ruling from the New Jersey Supreme Court, Abbott dropped

out of school, fought a cocaine addiction, and spent time in prison before turning his life around. Raymond Abbott's is just one of the many human stories that have too often been forgotten in the policy battles New Jersey has waged for two generations over equal funding for rich and poor schools. *Other People's Children*, the first book to tell the story of this decades-long school funding battle, interweaves the public story—an account of legal and political wrangling over laws and money—with the private stories of the inner-city children who were named plaintiffs in the state's two school funding lawsuits, *Robinson v. Cahill* and *Abbott v. Burke*. Although these cases have shaped New Jersey's fiscal and political landscape since the 1970s, most recently in legislative arguments over tax reform, the debate has often been too abstract and technical for most citizens to understand. Written in an accessible style and based on dozens of interviews with lawyers, politicians, and the plaintiffs themselves, *Other People's Children* crystallizes the arguments and clarifies the issues for general readers. Beyond its implications for New Jersey, this book is an important contribution to the conversations taking place in all states about the nation's responsibility for its poor, and the role of public schools in providing equal opportunities and promising upward mobility for hard-working citizens, regardless of race or class.

"Erin Brockovich meets *Dark Waters* in this ... legal drama set in Appalachian coal country, as one determined lawyer confronts a coal industry giant in a battle over clean drinking water for a West Virginia community For two decades, the water in the taps and wells of Mingo County didn't look, smell, or taste right. Could it be the root of the health problems--from kidney stones to cancer--in this Appalachian community? Environmental lawyer Kevin Thompson certainly thought so. For seven years, he waged an epic legal battle against Massey Energy, West Virginia's most powerful coal company ... While Massey's lawyers worked out of a gray glass office tower in Charleston known as 'the Death Star,' Thompson set up shop in a ramshackle hotel in the fading coal town of Williamson"--|cProvided by publishe

The book that inspired the documentary *A Crime on the Bayou* 2021 Chautauqua Prize Finalist *The "arresting, astonishing history" of one lawyer and his defendant who together achieved a "civil rights milestone" (Justin Driver)*. In 1966 in a small town in Louisiana, a 19-year-old black man named Gary Duncan pulled his car off the road to stop a fight. Duncan was arrested a few minutes later for the crime of putting his hand on the arm of a white child. Rather than accepting his fate, Duncan found Richard Sobol, a brilliant, 29-year-old lawyer from New York who was the only white attorney at "the most radical law firm" in New Orleans. Against them stood one of the most powerful white supremacists in the South, a man called simply "The Judge." In this powerful work of character-driven history, journalist Matthew Van Meter vividly brings alive how a seemingly minor incident brought massive, systemic change to the criminal justice system. Using first-person interviews, in-depth research and a deep knowledge of the law, Van Meter shows how Gary Duncan's insistence on seeking justice empowered generations of defendants-disproportionately poor and black-to demand fair trials. *Duncan v. Louisiana* changed American law, but first it changed the lives of those who litigated it.

A major proponent of Palestinian liberation offers a comprehensive analysis of the current conflict with Israel—and the potential for Palestinian victory. As the longstanding tensions between Israel and Palestine continue to erupt into violence, Ali Abunimah offers astute insights into the politics behind the headlines. In *The Battle for Justice in Palestine*, Abunimah looks at the shifting tides of Palestine and the Israelis in a neoliberal world—and makes a compelling and surprising case for why the Palestine solidarity movement just might win. Abunimah is a Palestinian-American journalist and major proponent of a one-state solution with equality for all. In *The Battle for Justice in Palestine*, he shares his hopeful vision of victory against Israeli apartheid and colonialism. "This is the book to read to understand the present bizarre and ongoing complexity of the Palestine/Israel tragedy." —Alice Walker

Dahlia Lithwick, Slate Senior Editor and one of the nation's foremost legal commentators, tells the gripping and heroic story of the women lawyers who fought the racism, sexism, and xenophobia of Donald Trump's presidency—and won. After the sudden shock of Donald Trump's victory over Hillary Clinton in 2016, many Americans felt lost and uncertain. It was clear he and his administration were going to pursue a series of retrograde, devastating policies. No one really knew what was going to happen. What could be done? At that very moment, women all around the country, independently of each other, were springing into action, and they had a common goal: as lawyers, they weren't going to stand by in the face of injustice, while Trump, Mitch McConnell, and the Republican party did everything in their power to remake the judiciary in their own conservative image. Over the next four years, the women marched, ran for office, phone banked, campaigned, and worked tirelessly to hold the line against the most chaotic and malign presidency in living memory. There was Sally Yates, the Acting Attorney General of the United States, who refused to sign off on the Muslim travel ban. And Becca Heller, the founder of a refugee assistance program and another opponent of the travel ban. And Roberta Kaplan, the famed commercial litigator, who sued the neo-Nazis in Charlottesville. And, of course, Stacy Abrams, whose efforts to protect the voting rights of millions of Georgians may well have been what won the Senate for the Democrats in 2020. These are just a handful of the stories Lithwick dramatizes in thrilling detail to tell a brand-new and deeply inspiring account of the Trump years. With unparalleled access to her subjects, she has written a luminous book, not about the villains of the Trump years like so many others, but about the heroes. A celebration of the tireless efforts, legal ingenuity, and indefatigable spirit of the women whose work all too often went unrecognized at the time, *Lady Justice* is destined to be treasured and passed from hand to hand for generations to come, not just among lawyers and law students, but all optimistic and hopeful Americans.

By the author of acclaimed books on the bitter clashes between Jefferson and Chief Justice Marshall on the shaping of the nation's constitutional future, and between Lincoln and Chief Justice Taney over slavery, secession, and the presidential war powers. Roosevelt and Chief Justice Hughes's fight over the New Deal was the most critical struggle between an American president and a chief justice in the twentieth century. The confrontation threatened the New Deal in the middle of the nation's worst depression. The activist president bombarded the Democratic Congress with a fusillade of legislative remedies that shut down insolvent banks, regulated stocks, imposed industrial codes, rationed agricultural production, and employed a quarter million young men in the Civilian Conservation Corps. But the legislation faced constitutional challenges by a conservative bloc on the Court determined to undercut the president. Chief Justice Hughes often joined the Court's conservatives to strike down major New Deal legislation. Frustrated, FDR proposed a Court-packing plan. His true purpose was to undermine the ability of the life-tenured Justices to thwart his popular mandate. Hughes proved more than a match for Roosevelt in the ensuing battle. In grudging admiration for Hughes, FDR said that the Chief Justice was the best politician in the country. Despite the defeat of his plan, Roosevelt never lost his confidence and, like Hughes, never ceded leadership. He outmaneuvered isolationist senators, many of whom had opposed his Court-packing plan, to expedite aid to Great Britain as the Allies hovered on the brink of defeat. He then led his country through World War II.
