Characteristics of 7th  
Graders Every child's  
development is unique.  
Although children  
develop through a  
generally predictable  
sequence of milestones,  
we cannot say exactly  
when a child will reach  
each and every stage.  
Every child has his or  
her own timetable.

Synapses form and new connections appear, increasing in number throughout childhood and into adulthood.

Only synapses and pathways that are used survive into adulthood; the process of synaptic pruning allows unused synapses to be eliminated.
