The central and intertropical parts of the Atlantic swarm with Pteropoda, Crustacea, and Radiata, and with their devourers the flying- fish, and again with their devourers the bonitos and albicores; I presume that the numerous lower pelagic animals feed on the Infusoria, which are now known, from the researches of Ehrenberg, to abound in the open ocean: but on what, in the clear blue water, do these Infusoria subsist?

*Devourers - definition of devourers by The Free Dictionary*

The Devourers of God, or simply The Cult, is a group of supernatural zealots armed with a singular mission: to bring a demon into the physical plane, no matter the cost.

*The Devourers of God | Sally Face Wiki | Fandom*

Devourers are an evolution of the mutalisk, but have a wasp-like form, and are much larger, slower, but more durable. They retain the mutalisk's signature tail, from which they spit a venom of corrosive acid at aerial targets that can eat through the reinforced armor plating of terran and protoss capital ships.

*Devourer - StarCraft and StarCraft II Wiki*

Soul devourers are high-level Slayer monsters found in the Sophanem Slayer Dungeon. Like corrupted creatures, the feather of Ma'at is required to kill these monsters, except the Magister. With the

exception of the salawa akh, all soul devourers have some sort of unique mechanic(s). Soul devourers can be assigned by Sumona, Kuradal, Morvran and Laniakea. Any of the following monsters can be killed for a soul devourer task, and several can be killed for other tasks as well.
