A graceful and penetrating memoir interweaving the author\u2019s descent into depression with a medical and cultural history of this illness. At the age of twenty-seven, married, living in New York, and working in book design, Mary Cregan gives birth to her first child, a daughter she names Anna. But it\u2019s apparent that something is terribly wrong, and two days later, Anna dies\u2013plunging Cregan into suicidal despair. Decades later, sustained by her work, a second marriage, and a son, Cregan reflects on this pivotal experience and attempts to make sense of it. She weaves together literature and research with details from her own ordeal\u2013and the still visible scar of her suicide attempt\u2013while also considering her life as part of the larger history of our understanding of depression. In fearless, candid prose, Cregan examines her psychotherapy alongside early treatments of melancholia, weighs the benefits of shock treatment against its terrifying pop culture depictions, explores the controversy around antidepressants and how little we know about them\u2013even as she acknowledges that the medication saved her life\u2013and sifts through the history of the hospital where her recovery began. Perceptive, intimate, and elegantly written, The Scar vividly depicts the pain and ongoing stigma of clinical depression, giving greater insight into its management and offering hope for those who are suffering.

A severely burned teenager. A guitar. Punk rock. The chords of a rock 'n' roll road trip in a coming-of-age novel that is a must-read story about finding your place in the world . . . even if you carry scars inside and out. In attempting to describe himself in his college application essay\u2013to "help us to become acquainted with you beyond your courses, grades, and test scores"\u2013Harbinger (Harry) Jones goes way beyond the 250-word limit and gives a full account of his life. The first defining moment: the day the neighborhood goons tied him to a tree during a lightning storm when he was 8 years old, and the tree was struck and caught fire. Harry was badly burned and has had to live with the physical and emotional scars, reactions from strangers, bullying, and loneliness that instantly became his everyday reality. The second defining moment: the day in eighth grade when the handsome, charismatic Johnny rescued him from the bullies and then made the startling suggestion that they start a band together. Harry discovered that playing music transported him out of his nightmare of a world, and he finally had something that compelled people to look beyond his physical appearance. Harry's description of his life in his essay is both humorous and heart-wrenching. He had a steeper road to climb than the average kid, but he ends up learning something about personal power, friendship, first love, and how to fit in the world. While he's looking back at the moments that have shaped his life, most of this story takes place while Harry is in high school and the summer after he graduates.

The Black church is often praised for its contribution to Black culture and politics. More recently Islam has been recognized as an important force in African American liberation. Anthony Pinn's new anthology *By These Hands* demonstrates the crucial, often overlooked role that Humanism has played in African American struggles for dignity, power and justice. Pinn collects the finest examples of African American Humanism and shows how its embrace by a variety of prominent figures in African American thought and letters has served as the basis for activism and resistance to American racism and sexism. Pinn uncovers little known treasures of African American Literature such as The Slave Narrative of James Hay, where an abused slave decides to rely on himself, rather than God, for deliverance from the horrors of slavery, and a letter from Frederick Douglass which scandalized his religious friends by proclaiming that "One honest Abolitionist was a greater terror to slaveholders than whole acres of camp-meeting preachers shouting glory to God." Essays by Zora Neale Hurston and Richard Wright demonstrate the profound influence of Humanism in the Harlem Renaissance, and pieces by James Farmer, Amiri Baraka (Leroi Jones) and Huey Newton show Humanism's impact on the civil rights and Black Power movements. Designed for classroom use, this radical reconsideration of African American history will be a must read for anyone interested in African American History, African American Religion and Philosophy, and American History. Contributors: Norm Allen, Jr., Herbert Aptheker, James Baldwin, Amiri Imamu Baraka, J. Mason Brewer, Sterling Brown, Frederick Douglass, W.E.B.Du Bois, James Foreman, Duchess Harris, Hubert H. Harrison, Harry Haywood, Zora Neale Hurston, William R. Jones, William Loren Katz, Benjamin E. Mays, Huey P. Newton, Daniel Payne, J. Saunders Redding, William L. What, precisely, is the clash over race in the 1990s, and does it support the charge of a new racism? Here is a brilliant articulation of what has happened, of how racial issues have become entangled with politics--the process of negotiating who gets what through government action. We now have to understand and cope with a politics of race.
