## **Nursing theories 3: nursing models | Nursing Times**

Theories. In nursing education, the term theory is used to refer to content covered in classrooms, as opposed to actual nursing practice. In both lay and scientific language, theory connotes an abstraction. Theory is often defined as an abstract generalization that explains how phenomena are interrelated. As classically defined, theories consist of two or more concepts and a set of propositions that form a logically interrelated system, providing a mechanism for deducing hypotheses.

## **Theoretical and Conceptual Frameworks | Nurse Key**

The nursing process has been described as a systematic, problem-solving approach to care. It is neither a nursing model nor a theory but rather one way of organising nursing activities. A major dilemma has been omitted from this paper, however, which nonetheless deserves mention here.

## **Theories and models of nursing and the nursing process**
